NO. 65

## RAILROAD OBTAINS SHUSHANNA REPORT

White Pass and Yukon Will  
Extend Line Commencing  
Next Year

## ENGINEER TELLS OF GOLD FIELD DISTRICT

Saw Forty to Fifty Ounces Per  
Pan Taken During  
Clean-up

## SHOULD PREPARE FOR STAY OF MONTHS

Vancouver, Sept. 15.—Interesting information concerning the Shushanna goldfields is contained in a report prepared by F. H. Burrall, a New York mining engineer, who has been conducting an inspection of the White river region and the districts in the Yukon adjacent to the scene of the new strike on behalf of the White Pass & Yukon route. His investigations were conducted in accordance with instructions from the president of the company, O. Dickson, with a view to a possible extension of the White Pass railway line from its present terminus. As mentioned yesterday, the company is so impressed by the prospects that it contemplates starting work on the proposed new line next year.

Mr. Burrall heard of the discoveries at Shushanna after he had been out on his inspection trip, and he was the first to report the strike. He was accompanied by the persistent reports caused his special visit to the scene of the strike to ascertain the truth of the stories he heard. He arrived there on August 2.

Extracts from his report are as follows: "The Shushanna gold district is from eight to twelve miles from the Shushanna river, lying between Johnson for Chitendak and Wilson creeks. Roughly, the claimed area is about 35 square miles in extent. It varies in elevation from 3,000 feet on Wilson creek to 5,100 feet at the extreme head of Big El Dorado. The timber line is at 4,500 feet, and most of the district is above it."

Johnson and Wilson creeks are medium grade streams of about 1,000 to 1,500 miner's inches of water, at the time of my visit, with wide bare gravel bars and occasional islands and canyons. They are about six miles apart and, almost parallel, flowing westerly into the Shushanna. The country between is undulating with gravel covered slopes for three to five miles to the north into the Wilson and abrupt, steeper hillsides on the south to the Johnson.

Mr. Burrall saw one "Cleanup" calculated and estimated that there were from 40 to 50 ounces of coarse gold in the pan. At \$15 an ounce my estimate would place the day's work at \$150 per man for seven or eight hours' shoveling.

"I asked if the balance of the ground on the sides of the gulch carried values and was told it did. The men said that their present operations were for the purpose of obtaining ready money, and that next spring they intended to put in a plant to take in the full width of the gulch and to clean the bed-rock."

"Apparently these were the only two places from which gold had been taken in paying quantities. On the other hand, so far as I know, these were the only likely places where bedrock had been reached. Most of the men in the district were busy doing the work required for recording their various claims, hunting for fractions and whipsawing lumber. Several had encountered frozen ground."

"Considerable jumping of claims is said to have occurred and it is told that there has been more or less blanketing. I saw some claims with at least two sets of papers. The recorder, George Morgan, told me that 250 claims had been recorded and that about 1,500 had been staked."

"People going into the district should be prepared for a sojourn of several months. They must either wait for claims to lapse or must search for gold on new creeks. The Shushanna country looks promising, and the gravel deposits seemingly extend also down the Beaver valley into Canadian territory. I fully expect that new and desirable discoveries will be made outside of the Shushanna."

## COLONEL HUGHES AND OFFICERS ON FRONTIER

London, Sept. 15.—A Paris dispatch states that the group of 20 Canadian militia officers, headed by Col. Sam Hughes, minister of militia, are now visiting the French eastern frontier inspecting its defence method with the knowledge, approval and assistance of the French military authorities.

Col. Hughes and his fellow officers are expected back in a day or two.

### DEPARTMENT STORE FIRE.

New Rochelle, N. Y., Sept. 15.—Fire that destroyed the 20 Canadian militia officers, headed by Col. Sam Hughes, minister of militia, are now visiting the French eastern frontier inspecting its defence method with the knowledge, approval and assistance of the French military authorities.

## THAW CAVALCADE MOVES TO LITTLETON; MOVING PICTURES IN SHERBROOKE JAIL ARE BARRED BY WINNIPEG AUTHORITIES

Train Load of Contenders in  
Insane Case Move From  
Colebrook

## FUGITIVE WINS ON HABEAS CORPUS WRIT

Judge Fails to Find Authority  
for Extraditing Lunatic  
Charged With Crime

## NO HEARING NOW FOR SEVEN DAYS

Colebrook, N. H., Sept. 15.—Harry K. Thaw, with his custodians and train of contending lawyers left at 5.15 o'clock this morning for Littleton, N. H., to appear in the United States District Court in the habeas corpus proceedings brought to checkmate any attempt to rush him back to New York.

Thaw's attorneys had obtained the writ as a protection in case Governor Peck signed a warrant granting the fugitive's extradition.

Littleton, N. H., Sept. 15.—Harry K. Thaw, fugitive from Matteawan, won a victory in the United States District Court here to-day when Judge Aldrich indefinitely suspended a hearing on a writ of habeas corpus, obtained by the Thaw lawyers. This means that Thaw will have a federal writ to check his immediate return to New York state in the event of Governor Peck's order.

## MEXICANS CELEBRATE INDEPENDENCE DAY

Huerta Makes Address Applauding Patriotic Ardor of Young Men

Mexico City, Sept. 15.—The biggest parade ever held in Mexico City began forming early to-day in celebration of the nation's independence day. Cold, drizzling rain caused the flags and bunting to droop and made marching over the sodden pavements a dreary business, but it did not quench the holiday spirit.

From early morning, detachments of soldiers, cadets, students and volunteers made their way toward Chapultepec, where the day's celebration began with speech-making and music, and where patriotic utterances of orators appointed for the occasion stirred embryo soldiers to enthusiasm.

General Victoriano Huerta, the provisional president of Mexico, in full uniform, surrounded by his staff and accompanied by many government officials and foreign diplomats, made a short address, applauding the patriotic ardor of the younger element of the population and calling them the hope of the nation and worthy sons of loyal fathers.

At the hour appointed for the opening of the civic observations at Chapultepec, the presidential salute boomed from the guns of the arsenal. At the conclusion of the ceremonies the presidential party drove through the streets lined with holiday-makers showering confetti and flowers from windows and balconies to the national palace, where General Huerta prepared to review the parade.

## HISTORIC BUILDING OF FRANCE AT EXPOSITION

Ambassador Convinced French Exhibit at San Francisco Will Be Representative

Paris, Sept. 15.—Much attention to the question of the French participation in the Panama-Pacific exposition at San Francisco in 1915, is being paid by Jean J. Jusserand, French ambassador to the United States, during his vacation in France. He has called on a number of important persons and possible exhibitors in half a dozen of the largest French provincial cities.

The ambassador is convinced that the French exhibit will be representative of the best that France can show. It is intended that everything shall be distinctive, either for its great value or its novelty, so that nothing shall be commonplace.

One of the historic buildings in France is also to be reproduced, and will serve to house the exhibit. It has not yet been decided which will be chosen.

### PICTURES BARRED

Winnipeg, Man., Sept. 15.—No motion pictures of Harry Thaw in jail or out of it, can be shown in Winnipeg. The civic license committee saw films depicting Thaw's life in jail at Sherbrooke, Que., and while there was no impropriety in the pictures they decided that any depiction of so notorious a character as Thaw was undesirable.

ing his extradition after the hearing to be held at Concord.

In an open discussion with William Travers Jerome, specially deputized by New York state to bring about Thaw's return to the asylum, after announcing the suspension of the hearing, Judge Aldrich said that search of the statutes had failed to reveal to him any law under which a man in Thaw's position, a lunatic charged with a crime, could be extradited.

"The immediate question," said Judge Aldrich, "is whether the proceedings shall go on or be suspended. It is the judgment of the court that a suspension would not menace the interests of either side, and in view of the fact that the governor hesitates to proceed with the extradition hearing until the status of this matter is assured, I suspend it. It is not adjourned, but suspended, and I suggest that either side notify me within six days when they are prepared to go on with it."

Counsel for both sides, after talking with the governor by telephone, agreed that the extradition hearing would not be held until Tuesday, September 23. The lawyers then went into conference to decide where to hold Thaw meanwhile.

## NETTIGREW IS SENT UP TO HIGHER COURT

Miners Realize They Have  
Lost One Year's Work and  
Concessions Asked

Nanaimo, B. C., Sept. 15.—George Pettigrew, international board member of the U.M.W. of A. and W. Nelson, a miner, were committed to stand trial to-day by Magistrate Simpson on a charge of intimidating John Weeks, a fire boss who attempted to work in defiance of the orders of the union.

Nothing sensational transpired during the hearing of evidence, which was similar to that given against a number of other miners who were committed several weeks ago for taking part in a riot which followed Weeks' attempt to go to his work. Pettigrew and Nelson both took the stand and gave as their reasons for being in the vicinity of the trouble that they were picketing. To-day is the anniversary of the commencement of the strike on Vancouver Island, and many of the miners are beginning to realize that they have lost one year's work and must eventually go back to the mines without gaining the concessions they were fighting for.

Many rumors are current of wholesale desertions from the ranks of the American union, and even the most sanguine are beginning to see the probability of defeat. Business men in this city and others throughout the district who have watched the strike since its inception are confident that the trouble will soon be over.

## SIR OLIVER LODGE ON PLANT LIFE SECRETS

Women Speakers Declare Cost of Living for Poor Six Per Cent. Higher

Birmingham, Eng., Sept. 15.—The secret of the determination of sex possibly may be found in plant life, Sir Oliver Lodge told the British Association at its meeting. Referring to the fact that some plants produce both male and female flowers, he said this must be the result of some profound change in the sap at the junction in the stems, where differently sexed flowers branch away from each other.

He continued: "I do not know what this is, and the microscope tells me nothing. Perhaps if physiologists could find out what happens in that little plant joint they might get a clue to the reason why some human beings are born boys and others girls."

Most of the day was devoted to a discussion of the cost of living. Two women, Mrs. Frances Wood, of Later Institute, and Miss Matheson, of the Birmingham Social Settlement, reached the conclusion that the cost of living for the poor had increased 6 per cent in the last decade.

## MAN IS VICTIM TO DEADLY SEWER GAS

Friends Who Jump to Rescue  
Are Overcome; One  
May Not Live

## HEROIC ACTIONS BY FOREMAN OF WORKERS

Battalion Chief of Fire Department  
Is Among Victims  
Who Tried Rescue

## TOTAL ONE DEAD, ONE DYING, TWO DOUBTFUL

San Francisco, Sept. 15.—One man is dead, another is dying and two more are in a serious condition as a result of being overcome by sewer gas in a man-hole beneath a crowded street.

James Conlon, a drain-flusher employed by the board of public works, who succumbed to the fumes, went into the manhole to adjust a sewer trap. He had been below only a short time when Patrick Lynch, foreman of the working gang, saw the worker fall, overcome by the gas. Lynch yelled to the other men and then began the descent to rescue Conlon. He had hardly reached the bottom when he, too, fell. Ropes were lowered and Nick Lawler, another flusher, volunteered to go to the aid of the men who were slowly sinking in the slime.

Lawyer also fell a victim to the fumes. Battalion Chief Walter Cook, of the fire department, who responded with his company to an alarm, placed a wet sponge in his mouth and went down the ladder. He placed a hook in Lynch's clothing and others began to haul the limp form to the street. The hook slipped and Lynch's body fell back.

Cook returned to the street for air. His condition was such that his men tried to prevail upon him not to descend again, but he persisted, and a second time reached Lynch, fixed the hook more securely and the foreman, nearly dead, was dragged out of the sewer. Cook came up, and donning an oxygen helmet, returned to get Conlon. Conlon was brought to the street dead, and Lawler unconscious. Lawler was taken with Lynch to the harbor emergency hospital nearby.

As the crowd cheered Cook he collapsed and was taken to the hospital, where his condition is serious. Lynch will probably die.

## MANUFACTURERS ARE MEETING AT HALIFAX

Halifax, N. S., Sept. 15.—Halifax is welcoming one hundred and seventy-four members of the Canadian Manufacturers' Association who are here for their annual meeting. A delegation from the Nova Scotia branch of the C. M. A. received them at the station and escorted them to their hotels. An elaborate entertainment programme has been arranged. This is the second time the association has met at Halifax.

## NELSON TO SPEND FIFTY THOUSAND ON GAS PLANT

Nelson, Sept. 15.—The Nelson city council last night made a deal to purchase from the Toronto Economical Gas Apparatus Construction Company a gas plant to be established in this city. The price is \$50,000, payable in 10 years, at 6 per cent. bonds. The city council believes it has made a good deal, and that the plant will easily pay for itself without any expense to property owners.

## DISCUSS WAR AT DENVER.

Denver, Colo., Sept. 15.—War and the treatment of wounds were the chief topics discussed to-day at headquarters of the Association of Military Surgeons. Delegates from the United States, Great Britain, France, Germany, Italy and China were in attendance for the opening of the 22nd annual convention, which will continue for three days.

## I.O.O.F. IN SESSION.

Minneapolis, Minn., Sept. 15.—Hot Springs, Ark., Atlantic City, N. J., and Washington, D. C., were cities most prominently mentioned to-day for next year's convention of the sovereign grand lodge, I.O.O.F., in annual session here. Meetings of the various branches of the order were held to-day, including the grand secretaries and grand scribes.

## HOT AT SAN FRANCISCO.

Another heat record was broken to-day when the thermometer registered 98 degrees at noon, making this the second hottest consecutive day of the year, with one exception the hottest September day San Francisco has ever known. In 1904 the mercury reached 101.

## SIR EDWARD CARSON LANDS IN IRELAND

Irish Unionist Leader Will Inspect Volunteer Army Being Raised in Ulster

Belfast, Sept. 15.—Sir Edward Carson, leader of the Irish Unionists, landed in Ireland to-day. The object of his visit, it was said, was to inspect a volunteer army which is being raised in Ulster to support the provisional government which is to be brought into existence in case the Home Rule bill becomes law.

In the course of the week a number of private meetings of the Ulster Unionist Council will take place to complete arrangements for the provisional government, which it is the purpose eventually to establish. There seems to be little hope of a general conference between the various parties on the question of home rule.

## HOME RULE COUNCIL ARRANGES MEETINGS

Redmond, O'Connor and Dillon  
to Speak at Gatherings  
in England

London, Sept. 15.—There are no fresh developments to report regarding the suggested Home Rule conference. While both parties seem to profess a desire to bring about a settlement by consent neither is disposed to take the initiative of opening a proposition. The cabinet ministers are still lying low, and it is noticeable that press comments to-day are few and far between.

Canon Sandry, of Oxford, an eminent scholar, has proposed that Lord Loreburn should issue invitations for the proposed conference and give his idea of what the conference should do. Among other things he says it is unlikely that any party government or opposition, Nationalist or Ulstermen, should be expected to surrender the whole principle for which they have been contending.

## VETERANS PRESENT HILL WITH BOUQUET

Glacier Park, Mont., Sept. 15.—To greet James J. Hill, founder of the Great Northern Railway, on his 75th birthday, more than 300 members of the Veterans' Association of the Great Northern reached Glacier Park in a special train of thirteen cars this morning. W. P. Kenney, vice-president, conducted the party to the park. Members of the association, headed by William J. McMillan, its president, presented the empire builder with seventy-five American Beauty roses.

## TEN THOUSAND STRIKE MAY BRING OUT OTHERS

Dublin, Sept. 15.—Over 10,000 men have joined in the strike movement started by the transport workers here, and the building and other trades are greatly affected. It is estimated by leaders that unless peace is soon reached 4,000 more men will be thrown out of work, as their labor depends on that of the men who have struck already. There is considerable suffering among the poorer classes, owing to the rise in the price of foodstuffs.

## AMMUNITION STOLEN.

El Paso, Tex., Sept. 15.—The theft of 4,000 rounds of ammunition from the United States customs house here was discovered to-day. Federal agents removing ammunition recently seized from smugglers, to be sent to Fort Bliss, found that the basement of the customs house had been entered and the 4,000 rounds taken away.

## CHARLES DE YOUNG IMPROVES.

San Francisco, Sept. 15.—Charles De Young, general manager of the San Francisco Chronicle, who is ill of typhoid fever and complications, survived the night and was stronger this morning. Hope for his recovery is again held out.

## RIVER MURDER LEADS POLICE TO NEW YORK COUNTERFEITERS' FLAT

Operations of Dentist Now Under Arrest in Connection With  
Confessed Murderer Schmidt Revealed by Search of  
Apartment; Nest of Crime Unravelled With Finding of Plant for Producing Illegal Coins

New York, Sept. 15.—Stripping from New York's river murder its mysteries, the police bared to-day a nest of crime, feathered, they claim, by the Rev. Hans Schmidt, confessed slayer of Anna Aumüller, and Dr. Ernest A. Muret, dentist by day and by night alleged to be a counterfeiter.

Muret is under arrest on a technical charge of having in his possession a pistol in violation of the Sullivan law. He was arrested early this morning, after detectives ransacking Schmidt's apartments had uncovered evidence to show that Schmidt was a counterfeiter. This evidence led them to a flat rented by a man under the name of George Miller, in which were found all essentials to the counterfeiters' craft. The janitress of the building, brought face to face with Muret, greeted him as Miller.

Muret, unaware of his impending apprehension, recognized her at once and said so, as the woman whom he had rented the flat from under his pseudonym.

Schmidt and Muret, the janitress said, and Muret admitted, had spent hours together in the flat. They told the renting agents that they were medical students and wanted the flat as a place for making experiments necessitated by their studies. What they really did, the police allege, was to experiment in counterfeiting. The kitchen was fitted up as a darkroom; a camera, a printing press, photographic supplies and other equipment used by counterfeiters was found there. But what the police relied upon to rivet their case was a bundle of charred counterfeit bills under the kitchen sink and bits of many other such bills, charred by fire, scattered through the four rooms.

After detectives had arrested Muret, they took into custody as a material witness the maid employed at his dental office. She said she was Bertha Zech and protested that she knew nothing of the crime of which her employer was suspected.

The police, busy with Muret, had found little time to question her this morning, but expected to learn from her during the day whatever she might know concerning the counterfeiting operations.

With Muret locked up, detectives set about searching his offices. There they found, it was said, such equipment as a dentist uses in practicing his profession.

Nelson, Sept. 15.—"In fifty years the capital of the Empire may not be found in London, in Dublin or in the Old Country, but in the prairies of Canada," said Hon. John Gordon, M.P. for Brighton in the British House of Commons, in an address before the Nelson Canadian Club yesterday.

"Don't imagine for a moment that the Old Mother country is in a state of decay. It is not," he asserted amid applause, while touching on the question of empire defence. "But help would be very welcome," he continued, "if the enemies of the Empire knew that if they drew a sword, it they made a threat against Great Britain, that there was not an ocean upon which it would be safe for their ships to sail because of the armed vessels of the dominions which formed the constellation of the empire, the effect would be of stupendous value. But England asked for no help from any dominion—she made no forcible request for aid. England is strong enough, rich enough, to protect her own shores and to give as much aid as she could to the dominions in time of need."

## PANAMA PEACE DOVE SHOULD CARRY BANANA

John Barrett Would Have New Emblem for International Tranquility

Washington, D. C., Sept. 15.—Shooting the dove of peace off its perch, John Barrett, director-general of the Pan-American Union, to-day installed the banana as the emblem of international tranquility, at least so far as Latin America is concerned. In a letter addressed to the Senate and House conferees on the tariff bill protesting against the proposed duty on fruit, he portrayed the humble banana as a powerful civilizing influence.

"The building up of the banana has done more than any other individual influence to bring about conditions of prosperity, sanitation, health and peace in those low-lying coast lines of the Caribbean and Gulf of Mexico, which previous to the banana era, were largely given up to wild jungles, malaria, shiftless people and haunts of incipient revolutions," said Mr. Barrett.

The dove of peace, it was said by one of the conferees who read Mr. Barrett's appeal, hereafter should carry a banana in its beak.

WITHDRAWAL STARTLED LEADERS

MEETING IS POLITICAL

New York, Sept. 15.—On the eve of her scheduled appearance at the Colby Progressive rally, held last night in the Patterson, N. J., high school, Miss Ernestine Schumann-Heink announced she would not be present. She did not know the meeting was to be political when she agreed to appear, she said.

Her withdrawal startled the leaders in charge of the meeting. The announcement of the singer's appearance caused so much interest that an immense crowd had been expected.

## WORKMAN WILL GET REWARD OF \$50,000

Famous Pearl Necklace Found  
on Sidewalk; One Gem  
Yet Missing

London, Sept. 15.—A workman this morning found on a sidewalk practically the entire pearl necklace, valued at \$50,000, which was stolen on July 16 while in transit by mail from Paris to London.

The man was going to work in Highbury, a northern district of London, when he noticed the pearls lying in a heap. On picking them up he found there were 53. He took them to the nearest police station, where they were at once recognized as part of the famous necklace from which only one pearl is now missing.

On September 2, five men, three Englishmen and two Austrians, were arrested when trying to dispose of some of the pearls in London. They are believed by the police to belong to a notorious international gang of thieves.

A reward of \$50,000 was offered for the return of the jewels probably will go to the workman.

## INDUSTRIAL WORKERS OF WORLD HOLD CONVENTION

Tom Mann Criticizes Samuel Gompers Calls Him Reactionary and Head of Trust

Chicago, Sept. 15.—Fifty delegates, declaring they represent a vast army of unskilled workmen, attended the opening of the annual convention of the I. W. W. yesterday. The delegates listened to Tom Mann, English labor leader, criticize Samuel Gompers, president of the American Federation of Labor.

"Gompers is a pure reactionary," he said, "and has got away from a sympathetic understanding of the needs of the great army of borne-down, unskilled laborers."

"He virtually is at the head of the American labor trust." Instead of welcoming into its membership all who need the benefits of organization, the labor trust, draws a sharp line, excluding the unskilled.

"If the aims of any right movement for the ultimate emancipation of the workmen are to be conserved, all workers, skilled and unskilled, must be welcomed."

KIRK KILISSEH WON  
BY OTTOMAN EMPIRE

Constantinople, Sept. 15.—The Bulgarian peace delegates have finally surrendered to-day to Turkish pressure and have allowed the town of Kirk Kilisseh to remain in Ottoman hands.

The Turks also succeeded in having the future frontier of the province of Thrace moved considerably northward.

It was agreed that the Black Sea limit to Turkish territory should be between Inlida and Hagios Stefanos (northwest of Adrianople) instead of at Midia, as originally proposed.

## STACKHOUSE WOULD TREAD ON NEW ICE

Expedition Will Cost \$200,000 and Leave for King Edward VII. Land

London, Sept. 14.—J. Foster Stackhouse, when interviewed on the subject of the new Antarctic expedition, explained his plans as far as he had made them.

"I am setting out simply to explore land which no Englishman has ever trod on."

"Our main object will be to determine the question of the drift and the extent of King Edward VII. land. In addition there are many problems beyond ice drift, for temperature and magnetic observations are dependant to a very large extent upon knowing what is in Ross Sea. To that end we shall take out a large staff of biologists, geologists, meteorologists and an oceanographer, etc. Altogether the crew will number 40."

"I expect to start from London some time in August of next year, and make our course toward the south, near Punta Sera. We should reach the ice about New Year's Day. During our stay in the south, our ship will return to New Zealand, where she will wait till we are ready to be taken off."

"The expedition, while on the ice, will be broken up into different parties, all commanded by capable men. The expedition, at a rough estimate, will cost £40,000. I expect to receive the support of the Royal Geographical Society, the Fellows of which the result of our work will be submitted on our return. We have already received considerable financial support."

Phoenix Stout, \$1.50 per doz. qts.

## SUFFERED SO MUCH SHE WANTED TO DIE

"Fruit-a-tives" Cured Her and Brought Her the Joy of Living

Enterprise, Ont., Oct. 1.  
"For seven years I suffered with what physicians called a 'Water Tumor.' Hypodermics of Morphine had to be given me to ease the pain."

"During one of these bad spells, a family friend brought a box of 'Fruit-a-tives' to the house. I was so 'bad' that it was only when I had taken nearly two boxes that I began to experience relief."

"I kept up the treatment, however, and after taking five boxes I was cured, and when I appeared on the streets my friends said 'The dead has come to life,' and this seemed literally true because I certainly was at death's door."

MRS. JAMES FENWICK.  
"Fruit-a-tives" are sold by all dealers at 50¢ a box, 6 for \$2.50—trial size, 25¢, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

## WANTS BUSINESS PLAN IN POSTAL BUSINESS

Australian P. M. G. Tells Interesting Facts Regarding Improvements.

Melbourne, Sept. 16.—The new postmaster-general, Agar Wynne, has announced the intention of the government to place the post office on a business footing, under the management of the railways of the different states.

Mr. Wynne quotes some interesting particulars relative to the business of the postal department. He said that only one letter out of every 22,000 posted went astray. During 1912, the post offices dealt with 4,800,000 registered articles, 531,912 letters, 175,900,000 newspapers and 4,354,000 parcels. Of the 24,000 letters annually reported missing, 11,000 ultimately got to their destination. Money orders representing 7,000,000 were issued every year.

The revenue of the department, which in 1902 was \$2,372,000 last year amounted to \$4,235,000. The expenditure in 1902 was \$2,450,000, and \$4,750,000 in 1912. In the period 1902-1912, the expenditure on the construction of telegraph lines, works and new buildings was \$5,500,000. Wynne also stated that he was giving attention to the postal systems of the leading countries in the world with a view to introducing improved methods into Australia, and if anything likely to be of advantage to the public should at any time be brought under his notice it would receive full consideration.

## HART-M'HARG HONORED ON ARRIVAL AT HOME

Winner of Governor's Medal and Contest Camp Perry Returns to Vancouver.

Vancouver, Sept. 16.—Fresh from his world-famous victories at Ottawa and Camp Perry, Ohio, Major Hart-McHarg, of the Sixth Duke of Connaught Rifles, Vancouver, had a rousing reception from his fellow-soldiers and townsmen at his home-coming last evening. He was received by a throng which had gathered to do him honor, including the members of his regiment and officers of other local regiments and civic officials.

Mayor Baxter welcomed the major home from his victories, saying that he earned the best wishes of every person in Vancouver for the honor he had won the city. He had not only carried off the highest prize for rifle shooting in Canada, the Governor-General's medal, but on going to Camp Perry as a member of the Dominion team for the Palma trophy he had won first place in the long-distance competition.

## I. W. W. MEMBER IN THE SMUGGLING BUSINESS

American Offers to Be State Evidence on Ammunition Running into Mexico.

Carrizozo Springs, Texas, Sept. 16.—Evidence that some of the fourteen ammunition smugglers under arrest here after a fight against United States troops Saturday were connected with the I. W. W. was unearthed to-day. From the body of Panfilo Vasquez, a slain smuggler, were taken papers indicating his membership in the I. W. W. All fourteen of the smugglers were indicted to-day in the county court here charged with murder for killing Candelario Ortiz. Trial was set for Thursday.

Burney Cline, the American arrested with the thirteen Mexicans, has offered to turn state's evidence. Cline claimed there is an underground railroad, for what he calls "gun running," from San Antonio through Kinpa and Carrizozo Springs, Texas, to the Mexican border. Federal officers have begun investigation of his revelations, which implicated several Americans. Two merchants here are in jail charged with smuggling.

## TO EXTEND WHITE PASS AND YUKON ALONG WHITE

Vancouver, Sept. 16.—C. J. Rogers, purchasing agent of the White Pass & Yukon route, announces that his company proposes to extend its line along White river toward the Chisana gold fields in Alaska. The extension will be in Canadian territory. The company, he says, will also build two large vessels for coast trade between Vancouver and Skagway to be in service late in 1914.

Roofs Made Fire-Proof by Newton & Greer Co., 1235 Wharf Street, makers of "Nag" Roof composition.

## STORE GIRLS' WAGES WINNIPEG SCHEDULE

Charities and Corrections Conference Hears Paper on Minimum Wage

Winnipeg, Man., Sept. 16.—Immigration questions occupied the time of the Canadian Conference of Charities and Corrections yesterday afternoon at its meeting in this city.

W. W. Lee, immigration secretary of the Y. M. C. A., national council, discussed the question of "Immigration and its Effects on Canadian Life." He declared that there was a change in the character of European immigration. Formerly it was from Northern Europe, last year there was only 19 per cent from Northern Europe, and the rest was from Southern Europe. But they had no right to despise the immigrant from Southern Europe. Both countries had produced men of fine ideals. He did not believe that any permanent harm in the displacement of labor had taken place through this European immigration, but their lower standards of living had adversely affected our life.

Mr. Lee discussed some facts in connection with the poverty and dependence of the foreign population, and said that in proportion to the general population, the percentage of foreign-speaking paupers was small. But the cases of desertion and non-support were larger than normal percentages. In Winnipeg last year 60 per cent of the cases receiving material relief were from Southern Europe. There was also a percentage of 25 per cent of dependents due to physical incapacity, instead of 14 per cent, which should be the normal percentage for their population.

The speaker considered the statement that European immigration had greatly increased crime was due more to prejudice than fact.

Miss Neufeld followed with an able paper on "The Training of an Immigrant for Citizenship." She advocated an attempt to get European immigrants to settle on the land.

Miss Neufeld suggested a reading and writing qualification in English before citizenship privileges were conferred on foreign-speaking immigrants. The feature of the evening session was a contribution by Rev. F. Woodworth, on "The Minimum Wage." He estimated a strictly reasonable budget of a family in Winnipeg to cost \$1.25 a week. He referred to wage-earning girls. Mr. Woodworth said that there were 72,571 girls in Canada working for 45 a week. In Winnipeg, out of 118 representative store girls examined by a special committee, 25 received over \$1 weekly, 23 received less, and 18 got less than \$2 weekly. Yet authorities said that it took a girl \$3 a week to live. The speaker advocated a living wage fixed by law.

## LAWYERS STILL HOPE FOR RETURN OF THAW

Proceedings in Court at Montreal Adjourned Until Next Thursday.

Montreal, Sept. 15.—Harry K. Thaw's lawyers have not given up hope of bringing him back to the Dominion. N. K. LaFlamme, one of them, announced in court to-day that he and his associates still expected to ask the appeal courts of Quebec for a decision on the constitutionality of the immigration act invoked when Thaw was deported. If they succeed in having the law declared invalid they will make a formal demand through the proper channels. Mr. LaFlamme said, for Thaw's return to Canada.

Six of Thaw's legal staff appeared to-day before the appeal court, to see what Chief Justice Archambault and his associates would do to the immigration officers for disobeying the court's writ of habeas corpus when Thaw was suddenly deported. To their disappointment, the court, instead of meeting out summary punishment, adjourned the proceedings until Thursday.

## THIRD LEGISLATURE OF ALBERTA COMMENCES

Thirty-Eight Liberals and Eighteen Conservatives Occupy the House.

Edmonton, Alta., Sept. 16.—The first session of the third legislature of the province of Alberta was formally opened this afternoon by Hon. Lieut.-Governor Bulyea. The session will not be a very long one, and it is probable that it will be over before the opening conference between the premiers of the various provinces which has been called for October 20.

Among the most important government measures are a new libel law, a workman's lien act to insure workmen being paid for their labor before they are used by railways, and amendments to municipal and school acts. Only a few private bills have as yet come before the clerk.

The new House will be composed of 56 members, made up of 38 Liberals and 18 Conservatives. The last House was made up of 41 members, there being 34 Liberals and seven Conservatives.

## JAPAN CRUISERS GO TO COAST OF CHINA

Tokio, Sept. 16.—The Japanese government to-day dispatched two cruisers and several torpedo-boat destroyers to the Chinese coast. Japan's demands in connection with the recent fighting at Nanking have been accepted in principle by China, but pending their actual settlement and the re-establishment of order, the Japanese government feels that the presence of increased naval forces in Chinese waters is justified.

## MOBILIZE MEXICAN TROOPS AT JUAREZ

Second Military Zone of Mexico to Be Transferred to Town on Border

El Paso, Sept. 15.—Within the next few days 3,000 federal troops will be mobilized at Juarez, and the military headquarters of the second military zone of Mexico, which takes in the entire state of Chihuahua, will be transferred to Juarez. General Salvador Mercado, commander of the zone, will also come to Juarez to take charge of the troops. The mobilization of troops at the international boundary has been ordered by the Mexican war department.

General Mercado will retire as military governor of the state, and General Francisco Castro, commander of the federal troops at Juarez, will replace him. General Castro departed on a special train from Juarez yesterday, and will go directly to Chihuahua to take charge of the state government. On his arrival at Chihuahua, General Mercado will start for Juarez to begin mobilization of the federal forces there. The troops will be brought to the border within the next few days.

The war department, in its orders for the reorganization of the federal forces in the second military zone, has commanded the mobilization of all volunteer forces in the state of Chihuahua. United States army officers stationed here learn of the Mexican federal plans for a mobilization at the border and have reported the proposed concentration of troops at Juarez to the war department at Washington.

Washington, Sept. 15.—Messages have gone to the American consuls at Chihuahua and Tepic inquiring as to the truth of the report that Morris F. Root, a nephew of Senator Root, had been shot at the latter place. In this case, Mr. Bryon is acting entirely on newspaper reports on the affair.

The embarkation of American refugees on the west coast of Mexico continues, and the American consular officer at Los Mochis reported that six American adults, eight children and one German, were leaving the district for the United States on the cruiser Yorkton today. Seventy Americans remain at Los Mochis, and there are 50 more in the district, mostly north of the line. It is expected that fifteen will leave on the transport Buford.

## SEVEN BADLY BEATEN IN GARMENT-STRIKERS' RIOT

Three Hundred Attack Those Who Refuse to Leave Work in Philadelphia Factories

Philadelphia, Sept. 15.—Seven persons, believed to be striking garment workers and their sympathizers, were so badly beaten in a disturbance late yesterday that they had to be sent to a hospital. Two of the men, Michael Druitt and Anthony Golts, were injured internally and are in a serious condition. A score of others received minor injuries.

Several garment workers who refused to join the strikers, were attacked by about 300 men and boys when they left their places of employment. Police Lieut. Morrow, who undertook to quell the riot, was badly beaten.

A riot call was sent in and the police dispersed the mob and arrested three of the ringleaders.

The garment workers to the number of about 4,000, have been on strike for two months, demanding increased pay and recognition of their union.

## COLONIAL INSTITUTE PLANS TRADE BOARD

Ottawa, Sept. 15.—A proposal has been made in England by the trade committee of the Royal Colonial Institute, which is remarkably like a suggestion which the late Judge Mahon made in 1910. It is that there should be an Empire board charged with the duty of investigating and publicly reporting upon any grievance which might be brought to its notice through any of its Empire governments. The board also would arrange and supervise the ocean mail and telegraph contracts of the Empire, and would assist in the developing of those services. Each of the Dominions would be represented on the board.

## BULL MOOSE STRUCK.

Cobalt, Ont., Sept. 15.—The Cobalt special was derailed at Mileage 49 Saturday night, when the engine struck a large bull moose which attempted to cross the tracks. The pony trucks of the engine left the rails and the passengers were given a slight jarring. The moose weighed about two thousand pounds.

## Aunt Sally's Advice to Beauty-Seekers

C. M. P.: The neck should receive similar attention to that given the complexion, so color and texture of skin will be the same. A yellow neck and a white face give a discordant effect. I advise using for both neck and complexion, the treatment recommended to "Monica." Monica: First, stop scowling. If you would get rid of the lines between the eyes. The best application for such lines, and all wrinkles is a solution of powdered azolette, 1 oz., dissolved in which, 1 pint. Bathe the face in this daily until entirely relieved. Monica: You hardly need such a list of cosmetics as you mention. Ordinary mercenary wax will help you more than any or all of them. It will gradually absorb the withered, discolored complexion, and you will soon have a new, youthful and healthy-looking skin. You needn't get more than one corner of the wax, which will coat you little at any drugstore. Apply nightly like cold cream, washing it off mornings.—Woman's Realm.

## ATTORNEY-GENERAL JOINS DEFENDANT

Further Hearing in Spanish Bank Sand Case in Court on Friday

Vancouver, Sept. 15.—As forecasted last week regarding further litigation over the Spanish banks, the provincial government has joined issue with the federal authorities to decide as to what government holds control of the area in question where the Dominion minister of public works has granted a monopoly to the Silva Sand & Gravel Company for the removal of sand to the detriment of the building supply men and citizens of this province generally.

The matter was mentioned in Supreme Court Chambers before Mr. Justice Morrison yesterday, when Attorney-General Bowser sought the court's order to join him as a co-defendant with the Ritchie Construction Company against whom the solicitor-general of Canada has issued a writ seeking an injunction to prevent the latter taking the sand.

The move means that there will be a fight between the two governments. The application for an injunction, and also the one made by the attorney-general, was ordered to stand over until Friday.

The hearing on Friday is to be the commencement, as the action will be carried to the Privy Council.

## ADmits THEFT BUT MAY NOT BE TRIED

Passenger Robbed of \$48. When on Way to Seattle on Prince Victoria.

Seattle, Sept. 15.—Jerry Leary, a laborer, jailed upon the arrival of the Princess Victoria from Vancouver Sunday for the theft of \$48 from a passenger which he admits, may not be tried. An attempt to obtain a complaint against Leary from Prosecuting Attorney Murphy was made yesterday. Mr. Murphy said he had no jurisdiction in the district. An appeal was made to United States District Attorney Charles F. Riddell. He refused on the same grounds.

Mrs. C. E. Middlemas of Issaquah, says she saw Leary going through the pockets of the passenger. She informed the captain and Leary was arrested aboard the vessel and turned over to the police on his arrival here. Both Mrs. Middlemas and the victim have not the time to remain in Seattle or go to Vancouver to prosecute and both have left the city. Leary may be released.

## SEARCH PARTY FAILS TO DISCOVER BODIES

All Trace of Survey Camp Destroyed in Landslide at Cape Muzon.

Ketchikan, Alaska, Sept. 15.—The launch Rough Rider, a relief boat sent to Cape Muzon last Saturday to give assistance to the Canadian boundary survey party whose camp was wiped out by a landslide returned yesterday morning without the bodies of two survivors who were lost. The relief party was unable to locate where the camp of the surveyors had been, as the slide came from 1,500 feet up the mountainside and in the widest part is 500 feet wide and twenty to thirty feet deep.

It is believed the bodies of the men are covered at this depth with rock, trees and gravel. Other members of the survey remained at the scene of the accident awaiting instructions and a force of men if the bodies are to be recovered. The men killed have been determined to be C. D. Roberts and Harvey Bode who have been on survey work for the Canadian government for some years.

## TURNING STABLES INTO CONSERVATOIRE OF MUSIC

Sydney, Sept. 15.—The state government is now pushing ahead the conversion of the government house stables into a conservatorium of music in accordance with the arrangements made when the premises were taken over from the commonwealth government.

The stables are designed in the form of a hollow square and the plans show a large hall to be erected in the centre 100 feet by 60 feet to seat 1,200 people. Class rooms, organ chamber, corridors, etc., will be formed to fill the requirements of the scheme.

## GOLD FROM SHUSHANNA.

Seattle, Sept. 15.—Bringing gold bullion valued at approximately \$1,400, the biggest shipment of treasure cargo yet received in Seattle from the new diggings on the Shushanna, the steamer Alameda, Captain Warner, reached yesterday from Southwestern Alaska ports.

## SUFFRAGE IN HOLLAND.

The Hague, Sept. 15.—There is every indication that women will shortly be given the parliamentary franchise in Holland. In the speech from the throne, delivered at the opening of the states general assembly to-day, the new Dutch cabinet stated its intention of granting the vote to women.

## NEW FLYING RECORD.

Paris, Sept. 15.—A remarkable flight, establishing a new cross-country record, was made yesterday by the French aviator, Ernest Guillaux. With a passenger he covered 115 miles from his home at Savigny-Sur-Braye to Paris in fifty minutes. This was at the rate of nearly 142 miles an hour.

## Authoritative Styles in Fall Suits, Coats and Dresses

Exclusive Models That May Be Seen Only at "Campbell's"

## Autumn and Winter Suit Models

In Wide-Cut Cords, Cheviots, Rough Serges, Boucle or Knot Effects, Zibelines, Melange Tweeds, Novelty Suitings, Jacquard Effects, Bayadere Cords, and, in fact, every known novelty weave is represented. Buttons are a prominent feature of trimming; all well-tailored and lined with two-tone or rich satin, and some have the little novelty waistcoat to harmonize or contrast.

The Skirts, in many cases, are slightly draped, while the new side slit is a popular feature. Though among the showing are to be seen many perfectly plain-tailored skirts, preserving the straight, narrow lines.

PRICES, \$60.00 DOWN TO \$17.50

PRICES \$50.00 DOWN TO \$12.50

Have you seen the new Catherine de Medici Ruffs? All colors. A clever neckwear innovation.

# Campbell's

"The Fashion Centre"

Our south window displays some charming little Bonnets for infants and children.

## DEATHS REPORTED BY MEN FROM SHUSHANNA

Sluicing at New Field Stopped September 1; Seasoned Prospectors Taking in Trail

Dawson, Y. T., Sept. 15.—Arrivals from Shushanna report that the news is current in the camp that two Fairbanks men have been drowned in the Nabesna river while trying to ford it. Also that another man has been accidentally shot in the breast and killed while hunting. No names are given. It is further reported that one was drowned in the rapids of the White river, but no confirmation has been received to any of these reports. It is possible that the mounted police will get definite information in a few days. Former Emergency Recorder Wann has arrived here and says that Morgan is retiring from the recordership to be succeeded by a Valdez man. There is no marshal in the camp. Those who have returned state that all sluicing stopped on September 1 because of the cold. It snowed three days. The movement from here continues, those leaving for the diggings including many seasoned prospectors from the lower river camps.

## CLEANSER YOUR HAIR MAKES IT BEAUTIFUL

It Becomes Thick, Wavy, Lustrous and All Dandruff Disappears.

Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowledge's Danderine from any drug store or toilet counter and try it as directed.

## The best time to take

"Wincarnis" is whenever you feel below your usual standard of health and fitness, but for those requiring a course of treatment, there are certain times of the day when there is an extra need for

Many people, especially those with a poor appetite for breakfast, find it necessary to take a "pick-me-up" during the morning. A glass of "Wincarnis" at eleven o'clock will dispel faintness, brace you up, and give you renewed strength for the morning's work. One glass of "Wincarnis" during the afternoon will banish headache or fatigue brought on through over-exertion while shopping, travelling, or through household work. "Wincarnis" not only refreshes and revives, but gives permanent energy for the rest of the day, refreshed and invigorated. If you take a glass of "Wincarnis" before retiring for the night, you will be protected from the risk of colds and chills on leaving a warm room for a cold one. You will also be assured a sound night's rest, and you will wake in the morning re-freshed and invigorated.

These are particular times when thousands of people take "Wincarnis" regularly with the best possible results, but you can take "Wincarnis" at any time, in any circumstances with safety and benefit.

"Wincarnis" can be obtained from all leading Stores, Chemists and Wine Merchants.

## TENDERS FOR STABLE.

Sealed tenders will be received by the undersigned for the erection of a stable and cart shed in the City Yard, Chambers Street, up to Monday, Sept. 22, at 4 p.m. Plans and specifications may be seen at the office of the Purchasing Agent, to whom all tenders must be addressed and marked on outside of envelope "Tender for stable." A deposit in cash or a certified cheque, drawn on a Canadian Chartered Bank payable to the order of the City Treasurer, for the sum of one hundred dollars, must accompany each tender. The lowest or any tender not necessarily accepted.

W. GALT,  
Purchasing Agent.  
Victoria, B. C., Sept. 15, 1913.

**OUR INTEREST IN THE UNDERWOOD BILL.**

The Colonist, after the manner of its friends in the east who believe in high protection and high cost of living because they are interested in selling the materials in which they have a monopoly at monopolistic prices, points out that the duties under the new tariff which will shortly come into effect in the United States will still be comparatively high. Quite so. The apology is accepted. At the same time the free list will be greatly enlarged, and it will include many of the staples the people require to sustain life. For example, to take one item that may prove of considerable interest to British Columbia, fresh fish will be admitted to the United States free of duty under the Underwood bill. This is a very good thing for British Columbia, provided we have sufficient business sagacity to take advantage of the opportunities circumstances place before our doors.

Of course there is another side to the question. It is the side that already has been touched upon by dealers in fish other than the flesh of fish. This authority tells us that as a consequence of the adoption of free trade in meat the people of Canada may have to pay higher prices for beef owing to the Americans absorbing a large portion of what would otherwise be available. Possibly this feature of the situation may be applicable to fish also. If that is the case, then our last condition will be worse than the first. The last item of cheap food in British Columbia may be snatched from our very mouths, and surely things are bad enough as it is. Still in this matter we prefer to look upon the bright side of things. On the whole, we think the decision of the United States to kick high protection into the sea will have a good effect not only upon commerce but upon the relationships of the nations. It will be somewhat embarrassing to the Borden government and the interests which placed it in power, but that institution is merely of the mushroom variety anyhow.

**NIGHT NOISES.**  
The medical health officer of Toronto has begun a campaign against night noises which, no doubt, will be limited by the authorities of other large cities. In discussing this subject Dr. Hastings says:  
"My ordinance will not specify any special noises. It will deal generally with all unnecessary and unseemly noise, and in cases of violations, the charge will be that of 'common nuisance to public welfare.' I would not attempt to touch the question of noise during the day, which has been dealt with in some American cities. What is needed most is peace at night. If the nights are quiet, it doesn't make much difference about the days." And he adds: "Noise during the night causes lack of sleep, and therefore much sickness, principally nervous trouble. Besides this, it is an immense economic waste. One who is troubled with insomnia becomes physically deficient, and therefore cannot perform his daily work properly. There is no doubt that thousands of dollars are lost daily through unnecessary racket during the night."  
Doctor Hastings does not specify the particular noises he wishes to stop, and his difficulty will be to discriminate

between unnecessary and necessary sleep disturbers. He should be able, however, to suppress the full-throated chanticleer which usually begins his concert at midnight, the merry roundelay with which divers dogs salute the moon and the shrill arguments of feline disputants on the back yard fences. These are unmitigated nuisances which are not confined to the large cities. Occasional prosecutions in the police court indicate that Victoria, too, has them, although our nights are comparatively silent alongside those of the larger communities.

We have not yet suffered the affliction of nerve-racking mechanical pianos, but our progress in recent years has been too pronounced for us to expect much further immunity from these and kindred pandemonium producers. We are beginning to collect a varied discordant assortment of day noises, due mainly to the ingenuity of the inventive geniuses who have devoted their talents in the direction of motor mechanism. One of these peace-disturbing agencies is operating with an infernal monotonous regularity beneath our window at this moment.

One of the reforms of the future in the larger cities, undoubtedly, will be the suppression of noises, night and day. We shall see the appointment of an Inspector of Noises, a gentleman with a well-developed sense of harmony, who will devote his attention to bells, whistles, wagon wheels, and motor horns, not overlooking cats, dogs, cows, and, heartlessly enough, perhaps, teething babies.

### TO THE RAILWAY COMMISSION

It is announced from Ottawa that J. G. H. Bergeron and Andrew Broder are to be appointed to the railway commission to succeed the Hon. M. E. Bernier and Dr. James Mills, who are about to retire. We have heard another rumor concerning the future of Mr. Bergeron, who is now in this city in connection with the work of the Indian Reserves Commission. It is that he is to take the place of the Hon. Louis Coderre as Secretary of State when that gentleman finds a refuge on the bench. To the untitled it always has been a mystery that Mr. Borden did not include him in his ministerial contingent from Quebec in the first instance, but to the initiated it was as clear as daylight. It is true Mr. Bergeron was defeated in Beauharnois, his old constituency, but a seat at that time most probably could have been found for him. Sir Rodolphe Forget had a couple, and still has them, although he is supposed to sit for only one. Now it would be a much more difficult proposition to open a constituency in the old province, because since 1911 the government has lost heavily in prestige there and its most uncompromising apologists admit that it would be lucky if it carried eight or ten out of the whole sixty-five.

The truth is that Mr. Bergeron was not taken into the cabinet when the slate was formed because he was not a Nationalist. He was a Conservative of the old brigade, the kind that rallied to the banner of Sir John Macdonald and Sir George Cartier. He was not regarded with favor in the camp of Monk, Bourassa and Lavergne, and he and such men as Marchand and Casgrain were side-tracked in favor of Monk, Pelletier and Nantel, not to overlook Dr. Blondin, who shudders every time he sees the Union Jack. Mr. Borden, the perfidious Imperialist, had entered into a defensive and offensive alliance with the Nationalists and had to pay the piper, and the piper exacted his pound of flesh. Mr. Bergeron would have made an excellent minister, incomparably better than an impractical drifter such as Monk or a political brigand such as Pelletier.

The case of Andrew Broder was somewhat similar. He was elected for Dundas, a seat he has held for years and in which he is invincible. He was an intimate friend of the Prime Minister, and like Mr. Bergeron, accompanied him in his political tours. In the House he was highly esteemed and admired for his rugged honesty and ability. Everybody expected that he would be a member of the cabinet. He himself thought so, in fact he had all but the definite assurance that he would be a minister. He was on Mr. Borden's original slate, but outside interests rubbed his name off it and substituted that of Dr. Reid, the present Minister of Customs, whose appointment was a surprise to even the supporters of the government. It is very questionable if one solitary person whom Mr. Borden originally intended to name for his cabinet was left on the list after the Nationalists, the Manufacturers' Association and Sir William Mackenzie had finally revised it. And that is the reason why the present cabinet is one of the weakest that ever attempted to administer the affairs of this country.

It may be that Mr. Bernier and Dr. Mills are retiring voluntarily. If they are not, the circumstance will be another exhibition of the buccannery methods adopted by a Prime Minister, who when leader of the opposition made numerous speeches in favor of removing the various government ser-

vices from the field of party politics. Already the number of dismissals is so large that, on Mr. Borden's own admission in parliament last session, it would take months to prepare a list of them.

### PRESIDENT AND BALL PLAYER.

A dispatch from Washington the other day informed us that Ty. Cobb had called on President Wilson at the White House and the chief executive greeted him warmly. Although the message contained no details of the conversation, we presume the president asked Tyrus about batting averages and base stealing prospects while the southern baseball whard inquired about the tariff, the Mexican situation and the California land question. Naturally each was non-committal, not being sure just what sort of a prize package his guardian divinity was holding for him.

Now, scores of people call on the president daily, but the newspapers do not even mention their names. Why then should Ty. Cobb receive the distinction of a special paragraph, front page, with a display border? It is because this is what historians will some day describe as the baseball era in the United States, and Tyrus Cobb, late of Georgia, probably a Democrat in politics, is the king of his generation. Quick intelligence, self-control, clear thinking, an unerring eye and good physical development are the essential factors in his triumphant progress, and when we come to think it over we realize that they are also the requirements of success in every other pursuit, even including the government of a great nation.

Cobb is a man of prominence in the country, and thousands who live miles from the scene of his exploits follow his progress on the diamond through the box scores published in the papers. But can a baseball star be a great man? Somewhere Disraeli has said that a great man is one who affects the mind of his generation; whether it be a monarch crossing the Granicus or a monk in his cloisters agitating Christianity and giving a new character to a pagan world. Tyrus Cobb is no Alexander or Hildebrand, but he can bat four hundred and circulate thrills with hair-raising catches and marvelous base stealing. Is he then great?

The kind of loyalty we like to read about is the loyalty of the people of Toronto to their annual exhibition. The residents of the Ontario capital not only shout aloud from the house-tops about the greatness of their show. They attend it to a man, woman, boy and girl. That is practical local patriotism. Hence the wonderful success that has attended the exhibition during recent years. That is the kind of spirit we need in Victoria, and the week of the fair is the time to display it.

The advocates of Sunday closing have made a great success of their campaign. They have succeeded in closing Victoria up tighter even than Toronto, where the courts do not seem to have a great deal of sympathy with the cause. Ice cream can be sold in Toronto on Sundays, a judicial decision having been given that it is food.

Judging from the alacrity with which Conservative members of parliament and supporters of the Borden government are rushing to cover in the country's service, there is something more than a misgiving abroad that a political cataclysm is impending.

The British Postmaster-General has consented to address the members of the Victoria Canadian Club. We sincerely hope Mr. Samuel will tell us that he has been greatly impressed by the "loyalty" of the Canadian people.

The adoption of the Underwood tariff bill will be the loudest blow ever struck at greed, selfishness and rapacity. In the meantime there is a rod in pickle for Canadian twentieth century barons who have been living in fatness at the expense of the people.

Long faces are the fashion here now on the first day of the week. Literally and figuratively, if you feel like "smiling" the act must be performed outside of the city limits.

### WHO CAN EXPLAIN IT?

From the Ottawa Journal.  
In 1912, the amount of liquor consumed per capita in the United States was 17.76 gallons. In 1913, it was 21.98 gallons. This year, official notice has it, the figure will be larger. To-day there are 46 millions living in "dry" territory in the United States, more than ever before. Who can explain it?

### SAM'S SPLENDID STYLE.

Toronto Star.  
Colonel the Honorable Sam and his gold-plated staff of brigadiers have sailed for England to witness the manoeuvres. Xerxes had nothing on Colonel the Honorable Sam when it comes to splendor in travelling.

### MAN'S VANITIES.

From the Acheson Globe.  
Every man likes to say that when he was younger he was quite handy with his mitts. Also that he was a devil among the girls.

## STRENGTHENING THE LAW

First Case Brought in Victoria Under Amended Criminal Code Respecting Moral Offences.

The first charge to be laid under the new and drastic clauses of the criminal code in relation to the so-called white slave traffic was sworn to by Detectives Murray and Macdonald last night after they had paid a visit to the Prince Rupert House and placed under arrest John Milton Miles and Marie Glendinning.

On this Miles has secured a remand until to-morrow in order to get the services of a lawyer to defend him. The girl, who is held on a vagrancy charge, was remanded also. The charge is that Miles, "for the purpose of gain, exercised such control, direction or influence over the movements of Marie Glendinning as to show that he was aiding, abetting and compelling her prostitution generally." The punishment for this offence is five years' imprisonment, and for a second offence whipping may be added at the discretion of the judge or magistrate.

Another amendment made to the law is in the same section, whereby the fact of a man living with or being habitually in the company of a woman of known bad repute, and who has no visible means of support, has the effect that he shall be deemed to be living on immoral earnings.

## CITIZENS VOTE OCT. 2

Sooke Lake By-Law to Raise \$1,500,000 Ready for Submission to People.

Thursday, October 2, was selected by the city council last night as the date on which the public will be asked to vote upon the borrowing of an additional \$1,500,000 to complete the Sooke Lake water supply system. The by-law which was passed through all its initial stages at last night's meeting of the council has been approved by the board of directors of the Dominion Securities Company, all of the conditions of the sale of the bonds being passed upon favorably by the fiscal agents. The voting will take place in the police court in the city hall, and W. W. Northcott will be the returning officer.

In the meantime the by-law will be published in the daily papers for ten days and a report on the manner in which the money is required to be expended will be prepared by the finance committee and circulated among the ratepayers in order to ensure a favorable vote.

Alderman Cuthbert's motion to connect with the Goldstream supply at Parson's Bridge was withdrawn on the engineer's adverse report.

## A Huge Display of All the Choice Styles In Women's Fall and Winter Wearing Apparel

Is To Be Seen in the Mantel and Millinery Departments

AND a goodly showing they make. All the fashion centres of Europe and America have been searched for models that are best suited for the women of Victoria, and judging by the degree of interest that has so far been shown by our customers, our buyers have been remarkably successful in picking out lines that are meeting with great approval.

## In the Millinery Department

We are exhibiting some very tastefully-designed Hats gathered from Paris, London and other European fashion centres.

Even the simplest of these models are reproductions of Hats designed by prominent artists, and styles that have met with great favor in one or more of the fashion centres. Of course, they are made of less expensive materials, but that must be the case if they are to be brought within the reach of the average woman.

Many expensive modes are to be had and we have no hesitation in saying that you are sure to find a style here that will give you entire satisfaction.

## Our Showing of Costumes and Coats

Is equally as interesting as the Millinery display, and the women who are interested in the tendencies of fashion will find in this department much that will give them pleasure. We invite critical inspection, and feel sure that the closer you inspect the garments the better you will think of them.

The Costumes are to be had in all styles, from the strictly man-tailored garment up to the extreme Oriental styles, and there is a full range of sizes. Good taste, individuality, perfection of fit, and newest styles are features of these garments that are easily seen, and the prices are within the reach of all, ranging from \$15.00 to ..... \$75.00

Fall and Winter Coats—This year our range is unusually large, and while the styles are very attractive, they have also been designed to give the greatest degree of comfort and warmth to the wearer. They come in a choice assortment of soft, spongy cloths, including diagonals, blanket cloths, tweeds, chin-chillas, curl cloths and ratines. Big buttons in two tones are very popular and with the convertible collars to be worn close to the neck, or giving a reverse effect, these garments should delight all women who demand both comfort and style in coats. Values from \$13.75 to ..... \$40.00

Notice our Window Displays.

## 40-Piece Austrian China Tea Set Special Wednesday \$3.50

THERE are only thirty of these Sets, so that a quick hour's sale on Wednesday morning at this low price should see them cleared out. ## Special Sale of Fancy Linens at Half-Price Wednesday

ONE hundred dozen Fancy Linens are to be cleared out on Wednesday and they include Battenburg Centre Pieces, Squares and Runners; also Embroidered Runners and Squares. Some of these pieces are a very fine quality and well worth an early shopping trip to secure. Battenburg Centre Pieces, regular 25c and 30c values, selling at 15c. About 20 dozen in this lot and many useful covers could be made by sewing several together. Embroidered Runners and Squares, 50c values selling at 25c. About 15 dozen in this lot. They are very pretty embroidered and hemstitched all round. The Squares measure 30x30 inches, and the Runners 18x45. At this price they are worth buying to put away for Christmas. Battenburg Muslin and Cotton Runners and Squares, regular \$1.00 values for 50c. At this price you can't find anything to equal the values these represent, go where you will. There are Battenburg Runners and Squares in both plain and drawn-work centres, and there is also a line of colored Embroidered Round Centre Pieces with scalloped edges; also a line of embroidered Runners in size 18x54. Battenburg Squares and Table Cloths, regular \$4.50 and \$5.00 values for, each, \$2.50. These come in various shapes and sizes, some having a plain centre. Others are embroidered designs, while there are different qualities of Battenburg lace. Each piece is a genuine bargain and should be readily picked up on Wednesday.

## REGULAR 35c FLANNEL SHIRTINGS, WEDNESDAY 25c

An opportunity to buy a heavy quality Flannel at only the price of Flannelette. There are only 16 pieces in this lot to be sold and there's a good selection of patterns, while the quality is most suitable for Winter Shirts or Night-Gowns. Regular 35c value. Wednesday, per yard ..... 25c

## Extraordinary Blanket Sale Values to \$4.50 Wednesday \$3.25

THERE are 100 pairs of Blankets to be cleared at this price on Wednesday. Fifty pairs of full-size White Blankets in a nice woolly finish and free from impurities, and fifty pairs of a 6-lb. Canadian light grey shade Blanket, suitable for campers or rooming house keepers. It's not often that we are able to make such splendid offerings in Blankets so early in the season, so you will see the importance of making an early visit to secure a pair. Regular values to \$4.50. Wednesday ..... \$3.25

## Whalebone Hair Brushes of Unusual Merit

WE have on show in our View street windows a fine assortment of whalebone Hair Brushes. These are a specially selected lot from one of the best English manufacturers and the quality and price have never been equalled in Victoria. All the up-to-date hair dressers agree that the use of a whalebone brush tends to strengthen the growth of the hair, eradicate dandruff and produce a lustrous. We will be pleased to have you call at our drug department and inspect these very fine brushes. Prices are 75c, \$1, \$1.25, \$1.35, \$1.50, \$1.75 and ..... \$2.00

Drug Dept., Main Floor

The Key Shop, 610 Pandora St.

Get a Room at the Jubilee, 571 Johnson street. Everything new.

Notice—In consequence of the short notice given, the attendance at my auction sale was very small, in fact almost nil. I shall, therefore, mark down every article at a price too attractive to leave them long in stock. It is my earnest desire to sell the superior articles as early as possible, to get the room I absolutely require for my upholstery business. Sale starts Monday, September 8, and will continue until all is disposed of. Orders for all kinds of upholstery taken as usual, 721 Courtney street, opposite Alexandra Club. Phone 1148, F. Kroeger.

He Took the Baby Out.—He took him out in one of our Outing Go-Carts. They are easy to run; they are comfortable for the child; they have rubber-tired ball-bearing wheels; they can't upset; they fold up in an instant. \$6.50 at R. A. Brown & Co.'s, 1302 Douglas Street.

Italians to Celebrate.—There will be a celebration by the Italians of the city on October 12 in honor of the birthday of Columbus.

Drummer Hoey's Gallantry.—A couple of evenings ago at Nanaimo Drummer Thomas Hoey, of the Seaforth's, saved the life of Alexander Kerrfoot, a lad of ten.

Saanich Council.—The council of Saanich meets this afternoon at 6 to discuss the Canadian Northern plans. The streets committee met yesterday afternoon and got through a lot of routine business.

Case is Dismissed.—After viewing the ground and hearing the addresses of counsel on the return to court Judge Lampman yesterday dismissed the charge of speeding laid against W. G. Holmes by the Esquimalt police.

Sewerage Oak Bay.—Work has begun on the pumping station at the corner of Longbranch and Transit streets, which will affect the sewerage of a small part of the municipality that cannot be done by gravitation.

Oak Bay Building.—Permits to build have been granted in Oak Bay to W. W. Blair for a dwelling on Beach drive to cost \$17,000 and to N. T. Burdick for a house on Wilmut street to cost \$900.

Establishing New Branch.—For the purpose of establishing a new branch of the Vancouver Island Development League on Galliano Island, Ernest McGaffey, secretary of the Victoria branch, left the city yesterday for the island point.

Minister Will Speak.—Acceptance of the invitation offered by the Canadian Club of this city to Right Hon. Herbert Samuel to address the club has been given to F. J. Sehl, the secretary, by the British minister. The date has been fixed for September 23.

Plans for Police Approved.—Plans for the erection of poles and wires in half a dozen streets were approved by the city council last night, two alterations being made by the city engineer in the plans submitted by the British Columbia Electric Company and the British Columbia Telephone Company.

Sent It to Council Too.—P. J. Sinnott, the mayor's secretary sent to the council a copy of the same letter as was published in last night's Times referring to the statements made by City Clerk Dowler respecting his report on the work of the clerk's office. The communication was received and filed without comment.

Health of City Good.—A low infant mortality and less sickness of all kinds than last year in the city was reported by Dr. G. A. B. Hall for the month of August. There were three cases of scarlet fever and two of diphtheria at the hospital during the month, all city cases. Twenty indigents were helped to a total of 469 days. There were 33 deaths during the month.

Fall Fair.—The fall fair is on today in Nanaimo and will last over tomorrow and the next day. There is a very large list of entries. Other falls this week are being held at Alberni on Wednesday; Ganges Harbor, Salt Spring Island, on Wednesday; Sooke (the first annual show), on Friday; Metchoon, on Wednesday; Comox on Thursday and Friday; Cowichan, at Duncan, on Friday and Saturday.

Oak Bay Gets Privilege.—On recommendation of the health and morals committee the city council adopted last night an agreement with Oak Bay whereby persons from that municipality afflicted with contagious diseases may be admitted to the isolation hospital. The terms are similar to those extended to Esquimalt and Saanich.

Studying Livestock Question.—In order to study prospective conditions in the Canadian cattle market following the reduction in meat duties under the new American tariff T. W. Tomlinson, secretary of the American National Livestock Association, is in the city for a few days. He is of the opinion that Canada will soon become a large exporter of livestock to the United States market.

Can't Fix Fountain.—The parks committee reported to the city council last night that the Caledonian Society's request that the fountain at the base of the Burns monument in Beacon Hill park be fixed could not be granted as the pipes were rusted and the work would be too expensive. The recommendation that the lettering be repainted was carried and the Caledonian Society will be notified of the report.

### TOUR OF INSPECTION.

R. H. Sperling, General Manager of B. C. E. Ry. Went Over Saanich Line To-day.

For the purpose of inspecting thoroughly the whole of the Saanich Interurban line from Victoria to Deep Bay, General Manager Sperling of the British Columbia Electric Railway, who arrived in the capital from Vancouver last evening, went over the whole line on a special observation car to-day. He was accompanied by the acting local manager.

To-morrow Mr. Sperling intends to make a similar trip of inspection to the company's plant at Jordan River where the great dam for storing summer power has just been completed.

### PRINCE GEORGE.

Great interest is being taken in the sale of lots of the townsite of Prince George, B. C., that is to come off at Vancouver on Wednesday, Sept. 17, and at Edmonton on Wednesday, Sept. 24.

Though Prince George is situated at the confluence of the Fraser and Nechako rivers in Central British Columbia, 450 miles N. E. of Vancouver and 467 miles E. of Prince Rupert, B. C. or midway between Prince Rupert and Edmonton, Alta., it has become well known to the people of this continent as the natural distributing point for the extensive territory comprised in the Pacific province of the Dominion, and will early become a large and important centre.

The town site is owned by the Grand Trunk Pacific railway and all particulars and plans can be secured on application to Mr. G. U. Kyle, Land Commissioner, Winnipeg, Man., or at the local ticket office.

### PRINTERS DREW LOTS.

Could Not Do Voters' List as Tender Was Let by City Council.

The city solicitor informed the council last night that he had had a call from W. V. Hinkle, representing the five printers who presented identical tenders for the printing of the voters' list, and that Mr. Hinkle had stated that the work could not be done satisfactorily if divided among the five shops as proposed by the finance committee. The five firms had accordingly drawn lots and the Colinet had won the job.

Alderman McNeill asked if Mr. Hinkle was the secretary of the Printers' Association and the statement said it was reliable so the tender was awarded to the Colinet.

### "OFFICER 666"

A battle of wits that is viewed with intense interest as waged by the mouth and the crack-brain in "Officer 666" has made that play the most interesting production given to the American stage in many years, and easily the most talked about.

It succeeded in creating a veritable sensation when presented in New York and Chicago last season, where the interest aroused kept the box office busy and the theatres crowded during its record run in the eastern and western metropolises.

"Officer 666," which will be seen here in this city for the first time at the Victoria theatre two nights and matinee commencing Sept. 19, is a jolly good farce, and the secret of its wonderful appeal may be attributed to the riddle that its plot presents, the solving of which is accomplished in a perfect maze of merriment and heightened by the unfolding of a charming love story that threads the three acts of Augustin MacHugh's thrilling detective story.

The Umbrella Shop, 610 Pandora St.

Approved 30 By-laws.—Twenty-nine by-laws for local improvement assessments were given the formal three readings by the council last night and will be finally passed a week hence. A by-law for the expropriation of two lots required for the northwest sewer was similarly passed.

Similarity of Names.—There has been some confusion arising out of a similarity of names between a well known citizen and a police court defendant. The Thomas Watson who has to appear to-morrow to answer a charge of obtaining money under false pretences hails from Ottawa and is a salesman for automobile accessories.

The Soil of Ceylon is of volcanic origin, containing phosphorus and minerals in a large degree. This imparts to "Selada" (the well known packet Ceylon Tea), a delicacy and fragrance that is incomparable.

### RING THE BELL! START THE WHEELS!

It's the jingle of the merchant's cash register bill that starts the factory wheels going.

GOODS THAT MOVE ARE GOODS THAT KEEP THE BELL RINGING. Goods of merit, which the public are made familiar through advertising make the merchant's perpetual motion from factory to consumer.

Retailers are successful to the extent that they can anticipate public wants. Profit lies in moving popular demand.

Demand sets in for the article made familiar by newspaper advertising and merchants are quick to co-operate by pushing the local demand along.

It will pay manufacturers to spend their money where a market can be centralized and where local merchants will take hold of distribution with enthusiasm and intelligence.

Merchants and manufacturers interested in local advertising for nationally distributed articles are invited to write to the Bureau of Advertising, American Newspaper Publishers' Association, World Building, New York.

### A LINE O' CHEER EACH DAY O' TH' YEAR

By John Kendrick Bangs

### THE PEACEFUL SOUL.

I don't fight with any one, doesn't matter what he's done. Quarrelling I never find. Suited to my style of mind. Either I am wrong or right. If I'm wrong, why should I fight? If I'm right, pray tell me how I'd be more so for a row?

### GOOD BILL OFFERED

Empress Vaudeville Maintains High Standard This Week—Humorous Playlet.

An excellent bill of vaudeville fare is presented by the company at the Empress theatre this week. The headliner is a very laughable sketch called "The Tamer," in which Mabel Florence, in the part of Mrs. Marvin, the flighty wife of a commuter, is tamed into proper submission by the hypnotic method. The denouement forms one of the most laughable situations seen on the boards for weeks.

Probably the next most popular feature, if applause counts for anything, will be the patter of the Merry Mith-smiths, Jack Dingle and Tom Corcoran, recently of Ziegfeld's Follies. Their antics as a salesman and instructor are uncommonly funny, and the dancing of a very high order.

Maude Brierley and Grace King offered several new attractive songs and dances while their conversational humor was well sustained throughout a very entertaining act. George Hall, the noted character comedian, maintained his reputation as the "Star of a Ragged Hero." His songs and impersonations were unusually good. The Naggy's, as human salamanders, presented a unique spectacle and entertainment, while the Gaumont pictures were as usual excellent.

### RESIDENTS UNITED.

People of Mount Tolmie Express Unalterable Opposition to Blasting of Rock.

There was a well-attended meeting of property owners and residents in the Mount Tolmie district held in the assembly hall of the University school last evening, at which the proposal to blast rock from the sides of Mount Tolmie was discussed very fully. The meeting passed the following series of resolutions unanimously:

"That we, the residents and property owners of the neighborhood of Mount Tolmie in public meeting assembled, do hereby resolve as follows:

"That we are irreconcilably opposed to the opening of a stone quarry or the blasting of rock for commercial purposes from Mount Tolmie and do earnestly request our council to revert to their former attitude in this matter, when, in the past, they successfully defeated repeated attempts to quarry and blast, and that they will immediately recall and cancel the permit granted to the Worswick Paving Company at a meeting held on the second day of September, 1913.

"That this meeting is further resolved that the recurrence of this menace to the safety of our persons and to the value of our property is of so disturbing a nature that we urgently represent to the council the absolute necessity of taking such measures as will prohibit for all time the repetition of this danger to the welfare of our community."

### GOOD TEMPLARS MEET.

Annual Meeting of Provincial Grand Lodge Opens Tuesday Afternoon Next.

Next week the annual meeting of the British Columbia Grand Lodge of the Independent Order of Good Templars will be held in this city, and will be the occasion for the gathering here of some of the leading workers in the temperance cause in this province.

The grand lodge sessions will open on the Tuesday afternoon in one of the halls of the Pythian Temple, North Park street, under the guidance of the grand chief templar, Rev. John P. Hicks, and will continue during Tuesday and Wednesday, concluding with a banquet on the latter evening. The Victoria District Lodge, which represents the nine lodges in the city and vicinity, will be the hosts of the grand lodge, and the arrangements for this are in the hands of a capable committee of ladies.

Among those who are expected to be here for the meeting is Major Cotterill, of Seattle, one of the international officers of the order. Every lodge in the

## Make a Point of Hearing This Marvelous Instrument

Those who have not yet taken the opportunity of hearing the wonderful New Edison Disc Phonograph have neglected a real treat. The music produced by this great instrument is as different from the ordinary type of music reproduced on so-called "talking machines" as day is from night.

## The Edison Disc Phonograph

The first instrument to reproduce music perfectly.

Is entirely a new departure. It is the first instrument to reproduce the over-tones which constitute tone color and which really distinguish one tone quality from another. It was this inability that formed the great objection to old-type instruments in the minds of many fastidious music lovers. To-day people who would not, previously, suffer such an instrument in their homes are gladly opening their doors to the New Edison.

The New Edison is played with a permanent, real diamond-point needle. This needle is so fine and so hard that it never requires attention, and never needs changing. Thus a source of bother in other instruments is done away with in the New Edison.

The New Edison is fitted with an automatic stop device which checks the motor at the end of the record, without assistance of any sort from the operator. This is another great advantage.

The New Edison uses a new type of records which are actually indestructible. They may be dropped on the hardest floor with impunity. These records have double the capacity of ordinary records of the largest size, because the grooves on them are so much finer. Therefore they will play twice as long, giving almost any selection in its entirety, instead of cutting it to one verse and a chorus.

Handsome in appearance, splendidly built and cabined, charming in design, the LAST WORD in music-reproducing ability, the New Edison Disc Phonograph is a wonder worth seeing and hearing.

The first shipment of Edison Double-Disc Records has just arrived. Call and let us put on a recital for you. Absolutely no obligation attaches. You will not be asked to buy. Come along.

province will be represented according to the number of members of the officers of the grand lodge.

### GREAT PILL MAN COMING.

Sir Joseph Beecham Has Varied Interests—Is Great Newspaper Advertiser.

Two very famous Old Country visitors to the city to-morrow will be "The Cameron of Lochiel," the head of the famous Highland clan, and Sir Joseph Beecham, the father of the Beecham's pill.

Sir Joseph does not confine his attention to pill production, though he has made a vast fortune through that agency. He is in addition a producer of grand opera, something along the line of Oscar Hammerstein, a philanthropist, and a municipal expert of no mean ability. He is deputy mayor of Liverpool, and has for many years served on the electric tramway board of St. Helen's, the suburb of Liverpool, where his pills are manufactured.

Sir Joseph is perhaps the greatest newspaper advertiser in the world. It is estimated that during the last eight years he has spent over five millions of dollars through this method of publicity alone.

M. W. Kennedy Appointed.—Hugh W. Kennedy was appointed arbitrator for the city yesterday on the expropriation proceedings for the property of C. W. Potts.

## Self Help For Nervous Persons

Can often be achieved by a simple change of food and drink.

Much nervousness is caused by tea and coffee drinking—eminent medical authorities having demonstrated that the drug, caffeine, in these beverages is a definite nerve poison to many persons.

Tea and coffee have no food value whatever, and are deceitful friends. Under their use the nerves first become irritated; then so sensitive and "on edge" that a slight variation from general health often appears most serious to the victim.

However, Nature responds quickly to common-sense treatment, and right living frequently does more than medicine. So, if you value peace and comfort, try this easy experiment.

Stop tea and coffee entirely and have hot, well-made

## POSTUM

This pure food-drink made from prime wheat has a delicious flavor and a fine brown color which changes to rich golden brown when cream is added.

It contains the genuine nourishing elements of the grain, but is absolutely free from the tea and coffee drug, or any other harmful ingredient.

Postum comes in two forms.

Regular Postum must be well boiled.

Instant Postum is a soluble powder. A spoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a very palatable beverage instantly.

Thousands have been wonderfully benefited by using Postum instead of tea and coffee—

## Shipping News from Day to Day

### OPERATE FIRST BELL FROM NEW LIGHTSHIP

Submarine Signalling Apparatus to Be Installed at Sandheads by End of Next Week

Arrangements have been completed for the establishment of the first submarine signalling bell in British Columbia waters. By the end of next week it is expected that the apparatus will have been installed on board the Sandheads lightship. Following the decision of the Marine and Fisheries Department to have these bells operating in these waters it is understood that the different steamship companies will immediately order receiving instruments for all their ships.

The submarine signalling bell is of invaluable service in foggy weather, during black nights or when blinding snowstorms and drizzling rains are falling. In the case of the bell on the lightship in misty weather it will be lowered over the side from a davit to a certain depth and the machinery which operates the diaphone fog alarm will be used to furnish the compressed air for striking the bell.

All Along Coast.

If the department finds that the bell proves of practical assistance and that the companies will equip their boats with the receiving apparatus many of these bells will be established at other dangerous points in British Columbia waters. Submarine signalling is somewhat an unknown aid on this coast, there being only a couple of bells on the United States side. On the Atlantic, however, this apparatus has been found to give entire satisfaction, and that seaboard. Many fine liners have been saved from striking the rocky coasts through the navigators picking up the sound of the bells when a fog miles off. It was not matter whether the ship is lurching and plunging into great seas, or whether she is steaming in calm waters, the sound of the bell ringing under water is detected by the receiving apparatus just as easily.

The Sandheads, which is located at the mouth of the Fraser river, is a nasty place and marks the turning point in the Gulf for the ferry steamers. The foggy weather, but the marine department has decided to lessen the arduous task of the mariners and will establish a second aid to insure the safety of ships with their passengers and cargo.

### AIDS TO NAVIGATION

(289) Sutil Channel—Uncharted Rock Reported Off Heriot Island.

Capt. John Cockle, S. S. Cheakamus, reports the existence of an uncharted rock off Heriot island, Sutil channel. The rock extends eastward from a point about 150 yards in a direction 93 deg. (N. 67 deg. 30 min. E. Mag.) approximately from the south-east extremity of Heriot island. Lat. N. 50 deg. 6 min. 20 sec., Long. W. 125 deg. 14 min. 29 sec. The rock is approximately in the position where 17 fathoms is shown on Admiralty chart No. 558. Description—A large shallow rock. There is no kelp showing. Depth—3 to 8 feet.

(290) Seaforth Channel—Uncharted Rock Northwest of Dall Patch.

Position of rock—2 1/2 cables 316 deg. 20 min. (N. 74 deg. W. Mag.) from Dall patch, and 1/2 mile 249 deg. 20 min. (S. 42 deg. W. Mag.) from White Stone beacon. Lat. N. 52 deg. 13 min. 6 sec.

### TRAMPS MAKE WAY AT CHUTES FOR CYCLOPS

Freighters Allow Blue Funnel Liner to Slip in and Fill Bunkers

Several tramp steamships which were loading bunker coal at Comox have made way for the Blue Funnel liner Cyclops, Capt. Arthur, which reached the coal port this morning, and consequently she will meet with no delay in arriving here to load. Since the beginning of the week several steamships passed up from San Francisco and other coast ports to fill their bunkers with sufficient coal to carry them across the Pacific with their cargoes of lumber, wheat and general freight.

It was feared at first that the Cyclops would be held up at the bunkers until the tramps had received their shipments. The mines are not putting out as much coal at present as is usually the case, and if the Blue Funnel ship had been forced to wait until the other boats had finished loading she would have lost at least a couple of days. The bunkers of the Cyclops will be filled by night and she will arrive off this port early to-morrow morning to load 3,000 barrels of whale oil for the United Kingdom. She will be in port a day and a half and then proceed to Puget Sound to complete loading her outward cargo.

Ajax Due Monday.

The Blue Funnel liner Ajax, Capt. Thompson, is now ploughing her way across the Pacific and is due to arrive at Victoria on Monday. She will be spoken off the coast in a few days, and it is expected by shipping men that she will probably put in an appearance at William Head one day ahead of her schedule. She is one of the older classes of Blue Funnel ships, but has good speed and can make the run in fourteen days.

Advices were received yesterday by Dodwell & Co., local agents for the Blue Funnel line, stating that the steamship Antiochus, Capt. Ryan, left that port on Saturday last on time. She is due in here one week from Friday. Following the Antiochus to Victoria is the new Holt liner, Ixion, Captain Reipenhouse, which is coming in on her second trip. Yesterday she was reported arriving at Singapore and she is scheduled to get away from that port to-morrow.

### BELIEVE SCHOONER WITH OFFICIAL ON IS LOST

Nome, Alaska, Sept. 16.—gasoline schooner Wasp, operated by Captain George Madson, sailed from Nome six weeks ago on what was supposed to be a 15-day trip. The vessel was chartered to carry supplies to a mission in the Kuskokwim district, and had on board Dr. Reed, the newly-appointed United States commissioner for Kuskokwim, and Superintendent Evans, of the bureau of education.

Much anxiety is felt for their safety. It is possible that the schooner was hung up on one of the many bars at the mouth of the Kuskokwim, but she should have been reported weeks ago.

### WILLOCHRA IS ON FIRST TRIP REPLACING AORANGI

San Francisco, Sept. 16.—Capt. Robert Neville is on the bridge of the new steamship Willochra, which is making her first voyage from the Antipodes to this port. The Willochra is taking the place of the Aorangi, on which Capt. Stevens was the skipper. According to advices to Hind, Rolph & Co., local agents for the Union Steamship Company, the new vessel is bringing a good passenger list and a large cargo, especially from Wellington.

### SOUTHEASTER DRIVES

#### ALBERT TO SHELTER

G. T. P. Steamer Was Unable to Steam Against Terrific Storm in Hecate Strait

Still the terrific southeast winds continue to sweep over this coast without any apparent signs of cessation. Wireless messages received to-day from the different stations contain information to the effect that the wind is still howling at almost hurricane clip and that the great seas are pounding away at the coast-line. The operation at Triangle last night was in communication with the G. T. P. steamer Prince Albert, Capt. Morehouse, which was forced to put about in Hecate Strait and head for shelter.

For the past three or four weeks the waters of Hecate Strait have been lashing about in turbulent rain, and steamers coming south have a hard time getting across from the Queen Charlotte Islands. The Prince Albert was bound from Skidegate for Victoria and set out yesterday afternoon on the long run across the Strait. She had not been out in the open sea long before the sea grew angry and the wind assailed her at a force of nearly 75 miles an hour. The vessel steamed against the blast for some time, but the labor was forced to alter his ship's course and make for a sheltered haven. He put into Jedway and waited until the storm abated.

The Prince Albert suffered a rather lengthy delay and will probably be late in arriving in Victoria. She is due to sail from this port for the Islands and Prince Rupert on Thursday night, but she may be late getting in.

Princess May Arrives.

After a rough trip from Skagway and Prince Rupert, the C. P. R. steamer Princess May, Capt. Robertson, arrived in port early this morning. The steamer brought south a large list of passengers, the majority of whom disembarked at Vancouver. Considerable rain was met and several hard blows were weathered. Capt. Robertson, who has commanded the Princess May for two trips will turn over the vessel to her old commander, Capt. John McLeod. The Skagway steamer leaves for the north on Friday night.

#### UMATILLA IS DELAYED.

The Pacific Coast steamship Umatilla is being delayed in leaving here for San Francisco. She is scheduled to sail to-morrow morning at 8 o'clock, but it will be 5 o'clock in the afternoon before she gets away.

### WHITE LINER DOCKS

#### AFTER FAST VOYAGE

Empress of Japan in Port This Afternoon From Orient; Few Passengers Arrive

Completing one of the fastest trips to be made by the smaller white liners for some time, the C. P. R. steamship Empress of Japan, Capt. Hopcroft, berthed at the outer docks this afternoon from Hongkong and Yokohama. The trim two-stacker was eleven and one-half days crossing the Pacific, during the greater part of which time she encountered fairly good weather. Light fog banks were steamed through on several occasions, but no heavy gales were met and the good weather was partly responsible for the fast voyage of the Japan.

The white liner brought into port one of the smallest passenger lists she has had for some time. There were fifteen travellers in the saloon and 125 Chinese in the steerage, 18 of whom were Chinese who disembarked at this port. The Japan had a valuable shipment of silk, worth approximately \$750,000, which is to be sent across the continent to New York.

The Empress is only spending a couple of hours here and will proceed to Vancouver.

Marama Docking About Noon.

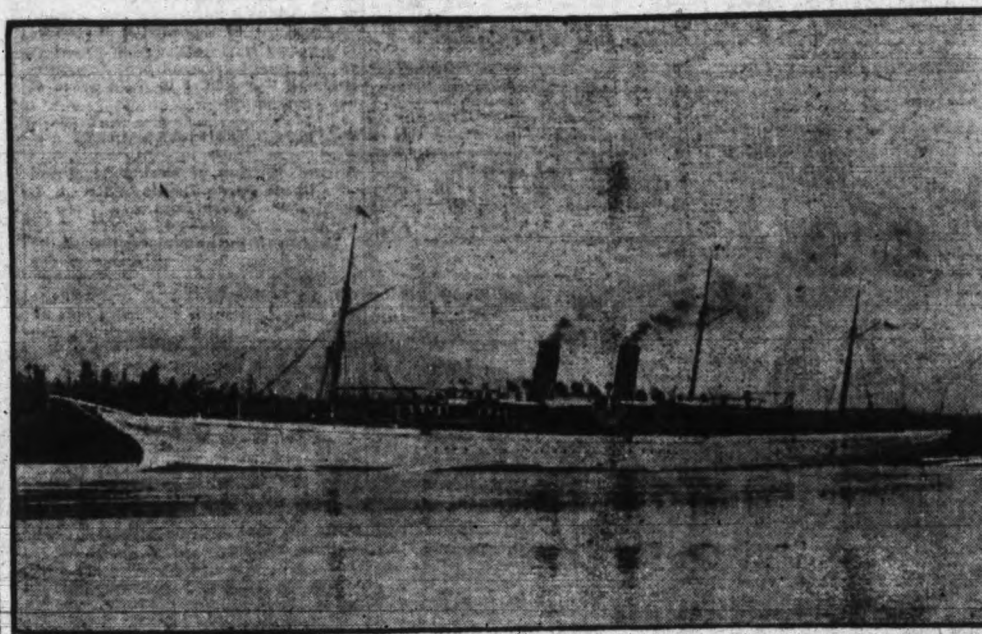

A wireless message from Capt. Rolls, master of the Canadian-Australian liner Marama, this morning stated that the vessel would reach William Head to-morrow morning at 11 o'clock, and berth at the outer docks about an hour and a half later. The Marama has a small list of passengers for this coast, there being only about 150 all told. When the steamship left Auckland she had 98 travellers on board, but a number have been picked up at Suva and Honolulu.

The Marama is one day late docking here owing to the fact that she cleared from the New Zealand port 24 hours behind her schedule. She had large shipments of butter to load, and was consequently delayed. The same delay was experienced by the Niagara on her last trip here, but as she has reserve speed she was able to pick up the lost time.

#### CHICAGO FOR ORIENT.

Bound for the Far East, the Osaka liner Chicago Maru, Capt. Goto, left port this morning at 11 o'clock. She took out 43 passengers from this port. The Chicago had a full cargo of general merchandise.

#### SECOND NEW VESSEL MAY BE CALLED CONSTITUTION

San Francisco, Sept. 16.—The name Constitution may be given to the large steamship which is to be built soon by the Pacific Coast Steamship Company.

The new vessel will be on the same lines as the Congress, which is now on the way from Philadelphia to this port. The company has steamships called the Governor, President and Congress, and the name Constitution would carry out the idea followed in the christening of the others.

The Congress is due here October 2, and will go on the coast runs immediately. When the Congress is in service arrangements will be made to withdraw the Governor and then the President temporarily for the installation of oil burning apparatus. The Congress is an oil burner.

The officials of the Pacific Coast

### RUPERT CITY FOR JAPAN

Port Townsend, Wash., Sept. 16.—After being tied up for months and being sold by the United States marshal to Dodwell & Co., the steamer Rupert City will again go into commission and be sent to the Japanese coast. Early in October she will be taken to Seattle and placed in dock and when ready will probably take lumber to some Japanese port and enter service as a China steamer.

### TOURISTS BEATEN.

Philadelphia, Sept. 15.—The All-Philadelphia eleven won the cricket match from the Incongnit Club, of London, by three wickets. The Englishmen scored 140 runs in their first innings and 195 in the second, a total of 335. The Philadelphians having made 203 in their first innings, needed 137 in their second innings to win, and they took the match, making 139 runs for the loss of seven wickets. The match was begun last Friday, and when it was resumed to-day the Englishmen completed their second innings.

# SPORTING NEWS

## FIVE CLUBS AGAIN IN SENIOR LEAGUE

### Annual Meeting of Victoria Rugby Union Held Last Night; Officers Elected

Harry Watkins, of the Victoria Welsh club, one of the most experienced Rugby players in the capital, will captain Victoria's representative fifteen this year as a result of a meeting of the Victoria Rugby Union, which was held at the Balmoral hotel last evening. Officers were elected for the season, and from the enthusiasm that prevailed, the coming season will be marked as the greatest that Rugby has ever enjoyed in this city. There were over one hundred enthusiasts present and all indications point to a bumper season.

#### Five-Club League.

Five teams will again figure in the senior series, the Fifth Regiment being admitted to the union to replace the Oak Bay club, which found itself unable to field a senior aggregation. The Law Students, Wanderers, Fifth Regiment, Victoria Welsh and James Bay teams, will comprise the senior league. Nothing was done regarding an intermediate division, but this will be taken up later.

Secretary Scott spoke of the coming visit of the New Zealand fifteen, stating that he had written, offering a \$500 guarantee, but had as yet received no answer. The matter was let stand for the time being. A letter of condolence was sent to the widow of the late W. S. Goodman, a former official, who died a few days ago. Messrs. Spalding and Scott will represent Victoria at the annual meeting of the British Columbia Rugby Union, to be held at Vancouver shortly.

#### Officers Chosen.

Officers were elected for the season as follows: President, G. H. Barham, M. P.; president, George H. Barham, M. P.; vice-president, J. E. Miller, W. C. Moore, H. D. Twiss, A. T. Goward, A. J. O'Reilly, E. E. Billingham, Dr. Hudson, F. L. Crawford, W. Blake, G. Gillespie; hon. secretary, A. D. R. Scott; hon. treasurer, W. H. Spalding; selection committee, T. Edwards, A. D. R. Scott, P. A. Sparks; captain, H. Watkins.

San Francisco, Sept. 16.—Joseph Miley, chairman; D. W. Burbank and P. Johns form the committee that will officially receive and entertain the New Zealand Rugby team which arrives in San Francisco on the second of next month. The All-Blacks are now on their way to California.

Tentative juggling of the schedule gives the Santa Clara University the date of October 22 with the New Zealanders, while St. Mary's is practically assured of November 5. It may be that the invaders will be sent against the University of Southern California on November 8.

#### TENNIS RATING.

Spokane, Sept. 15.—Joe Tyler, president of the Pacific Northwest Tennis Association, to-day named the ranking committee for 1913 as follows: E. Cave Brown-Cave, of Vancouver; Samuel Russell, of Seattle, and Walter Goff, of Portland.

## SPEED AND 'PEP' BEAT THE TIGERS

### Victoria Made Tacoma Look Like Bushers; Score 6 to 3

Wayne Barham, Victoria's grand old slugger, chalked up his seventh straight win at the expense of the Tacoma Tigers yesterday afternoon, the blonde-haired youth cutting the Bengals down to six bingles, while he allowed them but three runs. The Bees were hitting in the pinches behind him, and belted two of the striped buskers for eight hits, netting six runs. It was a queer game of baseball, and while the Bees did not display any great amount of pepper, Tacoma's boots and the activity of the locals on the base paths, about clinched the honors. Kellar and Alberts divided hitting honors with a homer apiece, while the Bees injected a couple of double steals into the proceedings that helped matters considerably.

#### Youngster Effective.

Barham was wild, but he was effective with men on bases, and at the start of the game he had his curve ball working in wonderful style. He breezed seven of the opposition and allowed five passes, though the Tigers found him a puzzle with runners on. Kurfess had trouble in locating the plate, and was hit freely, while Belford, who succeeded him, was also off the rubber. Shea and Lamb led the attack of the Bees, while Alberts, Barham and Crum came through in the pinches. McMullen was the big man with the stick for the invaders, the third sacker getting two hits and a walk in four trips to the plate. Tacoma played a poor game in the field, with only three errors committed, while they had their pitchers in trouble throughout.

Seven batters, never before has Victoria shown up so well on the bases, the Bees stealing no less than seven sacks off Kelly, the Tacoma backstop. The latter was wild in throwing to the bases, but the Bees were there with the speed, and it would have taken perfect pegs to catch them. Two double steals featured their daring running. Lamb getting three bases, while Shea grabbed off two. Cy Neighbors was the only Tiger to get away with a clean pliffer of second. Shea heading off McMullen with a nice throw to stretch his single upon the return to the plate. Danny also pulled a clever piece of work on Kellar in the seventh when, with the bases full he double-crossed Kellar on a pitch-out. Shea jumped clear of the plate with the count three and two on Kellar, and Barham then shot one straight over, Kellar taking three and beating it to the bench.

Jimmy Toman was behind the wind and worked nicely. Barham had a book that broke just at the plate, and Toman was kept busy giving the local twirler the benefit of his curve ball. The score:

Tacoma—A. B. R. H. P. O. A. E.  
Salsburg, c. s. 4 0 1 1 1 1 1

Bases on balls—Off Kurfess, 2; off Belford, 3; off Barham, 5. Wild pitch—Barham. Balk—Kurfess. Hit by pitcher—Neighbors. Runners pitched by Kurfess, 5 hits, 8 runs, 6 errors. Charge defeat to Kurfess. Time of game—1:50. Umpire—Toman.

## TWENTY-THREE STRAIGHT BULLS

Spa Girl, N. J., Sept. 15.—Captain W. H. Richard, of Ohio, to-day broke the world's record for consecutive bull's eyes in the 500-yard range with sixteen-inch targets by scoring 23 with one miss. Captain Richard was shooting in the Meany match at the international and interstate tournament. After he had made a perfect score of 10 he kept on shooting according to the rules of the match. Corporal R. B. Moore, marine corps, was second with seventeen bulls' eyes. Edlice J. Jevens, of Argentina, will win the all-comers' expert match with a perfect score of 50, unless Albert Snyder of West Jacobs, of the United States infantry, change the score when they shoot later.

## ONLY FREE AGENT

JIMMY GARDNER

Former manager of the New Westminster Hockey Club, who has been declared a free agent by the Pacific Coast Hockey Association. Gardner is the only prominent hockey player in the Dominion to-day who can sign up with any club that he wishes, now that the East and West have united upon a Hockey Commission.

## LOCAL TWELVE TO PLAY NEXT WEEK

### Dates Changed for Mann Cup Games; Pro's Also Ar- range Series

Oak Bay have been notified to play the V. A. C. Mann cup holders at Vancouver on Tuesday and Saturday of next week. The local challengers have been practising every day for the past fortnight and will be in the best of shape when they take the field against the Terminal City twelve. An effort will be made to play Argy McInnes on the attack of the Oak Bay, but the final selection of the Island champions will not be made until Saturday.

Final D. L. A. Standings.  
Irish-Canadians 12 6 118 112  
Nationals 11 7 110 107  
Ternumehs 8 10 125 162  
Torontos 8 13 103 133

#### Minto Cup Games.

New Westminster, Sept. 16.—Two Minto Cup matches between the Westminister team and the V. A. C. challengers will be played at Queen's Park during the New Westminster Exhibition. The decision was arrived at last evening at a meeting of the directors of the fair. The V. A. C. Society, offered \$4,000 for the two games. Contracts will be drawn up and signed next week. The games will be played on Tuesday, September 30, and Saturday, Oct. 4. The Royals have been training a little all the time since the challenge for the cup was received and they will now settle down to hard work to get in shape to wipe out the stingling 16 to 7 defeat handed out to them by the V. A. C. several weeks ago. It is extremely doubtful that the Oak Bay Lacrosse Club will be able to fill the dates that the Vancouver Athletic Club have allotted to the local team. The boys intend holding a meeting to-night, when the club will make an official reply to the Vancouver communication. They will go to Vancouver this Saturday, it is thought, and ask for a second game on September 27.

Struck out—By Hall, 4; by Douglass, 5; by Smith, 1. Pitchers' summary—6 runs, 6 hits off Douglass in 4 innings; 8 runs, 5 hits off Smith in 4 innings. Charge defeat to Douglass. Sacrifice hits—Konnick, Pittsimmons. Stolen bases—Bennett (2). Hit by pitched ball—Wagner by Hall, L. f. on bases—Vancouver, 4; Spokane, 7. Time of game—1:42. Umpire—Casey.

## SOCCER SURPRISE IS LOOKED FOR

### Proposal May Be Made to Affili- ate With D. F. A. at Com- ing Meeting of League

Important developments may be looked for at to-morrow night's meeting of the Victoria and District Football Association, which will be held in Sam Lortimer's billiard parlour on Douglas street. One of the big items of the evening is the registration of players and as the Wards will turn in a whole sheaf of the former pro stars, it is said that Manager Jack Youson, of the Wards, will put forward a motion to hold up these certificates until these players secure amateur cards. This may be a mere matter of form, but the constitution of the league calls for the production of amateur cards before a certificate is granted and the former pro's will not be able to secure their cards until the next meeting of the B. C. A. U. This will be held in Vancouver the latter part of this week.

Affiliation with the Dominion Football Association will be brought before the association and as there are a number of good soccer players in the city to-day who are barred because of their Old Country affiliations, an effort may be made to join the Dominion body and enable these outcasts once more to join their clubs. President Lockley is a strong B. C. A. U. supporter, so that there may be trouble in getting the local clubs to adopt this motion, though the Wards are strongly in favor of the move. The mixup which resulted in the attempts to play off the tie for the McBride cup will be reopened and a definite understanding reached as to what stand the Victoria clubs will take in this matter.

A schedule will be presented for the second division and a board of referees will be appointed to act during the coming season. A number of cases of players being regraded will be taken up in addition to the other business on hand. The gathering will start at 8:30 p. m.

Montreal, Sept. 15.—It looks as if the new, compact, only shortly gone into between the Amateur Athletic Union of Canada, and the Dominion Football Association, might get a rude jar, as the result of the resolutions passed during the D. F. A. meeting at Fort William, as soon as Dr. Tees and his associates read the details of the new rules, passed in regard to the reinstatement of professional players.

The D. F. A. officers, however, say that the entire worst is behind them in this decision, and that if the A. A. U. of C. does not see its way clear to agree with them, they will have to break loose and govern their own affairs.

fairly again, much as they would dislike to do so.  
The Dominion Football Association, they claim, is getting to be such a big thing, however, that in a few years they will far overshadow the A. A. U. of C.

Standing of Teams.									
	P.	W.	L.	D.	F.	A.	Pts.		
Winnipeg	3	1	0	2	6	8	4		
Lachine	3	1	1	1	5	7	3		
St. William	3	1	1	1	5	7	3		
Toronto	3	0	1	2	3	4	3		

## LEAGUE LEADERS IMPROVED POSITION

New York, Sept. 16.—Ground was gained to-day by both the major league leaders in line for world's championship honors and with both Giants and Athletics playing a stronger and more consistent game than for weeks previous, there seems hardly a chance remaining for an upset before the closing of the season, now a bare three weeks away. The most marked improvement was shown by McGraw's men. While the Athletics dropped two games to the White Sox before they headed and evened up the series.

Cleveland broke under the Washington attack and again missed a splendid chance to work themselves into a position where the Mackins would have had the fight of their lives for the championship laurels. Washington, Cleveland's nemesis since the early days of the American league, has thus to all appearances put the final check upon the Naps' chances for the flag, and in the last few days even the Cleveland title to second place has been threatened.

Giants Improve.  
The Giant box men, with the possible exception of Marquard, are showing class. Marquard, indeed, won his only game of the week, but was mauled with some severity by the Cubs as the new week opened. Mathewson, Tesreau and Demaree are swinging along in world series form. Demaree, by the way, is working up a remarkable record for a first year man, being tied with Humphries, of Chicago, for the lead among the league's twirlers who have taken part in twenty or more games.

In the other camp of probable post-season contenders, Bender, Plank, Brown and Shawkey, the twirlers expected to do the bulk of work against the National league champions, have been holding their opponents to close scores recently, but the old hitting power of the team has not been strong in evidence.

#### COWICHAN LOST.

Nanaimo, B. C., Sept. 16.—Nanaimo defeated the Cowichan Cricket Club yesterday by 132 to 70. Williamson 28, Hindmarch 22, and Paul 22 were high men of the local; while Maynard 28 and Brooks-Smith 14 were the only visitors to reach double figures. The feature of the game was the bowling of Hindmarch, Nanaimo, who took four wickets for only 9 runs.

## THIRTEEN PLAYERS HAVE BEEN SELECTED

Up to date only thirteen Colts have been selected for the Australian game. The remaining nine will be notified of their selection later. There will also be two substitutes, who will probably be selected two days before the game. The Colts will therefore appreciate the necessity of forwarding their applications immediately.

From present indications there will be no lack of entertainment to which all participants in the games will be invited. The spectators' comfort is being looked after to an unusual degree. Luncheons and teas may be procured at all times on the grounds, and spectators are advised to be on the lookout for the introduction of some novel and attractive features. Umpires are in demand. Those who will favor the management by standing in this capacity are requested to send their names to Crawford Combs, stating what days will be convenient for them.

The following is a full list of applicants:  
H. B. Hayward (captain), Cowichan C. C.; D. Carr Hilton, Cowichan C. C.; Rupert Stephens, Cowichan C. C.; Geoffrey Stephens, Cowichan C. C.; M. H. Finlayson, Cowichan Bay; Chas. L. Price, Cowichan Station; Geo. W. H. Liffon, Saanich C. C.; H. Carrier, Saanich C. C.; A. V. Forrester, High School; L. B. Warricker, High School; R. H. Finlayson, University School; A. P. Hudson, University School; H. Hudson, University School; L. S. Duke, University School; Kilpatrick, University School; Dobble, University School; D. W. Milne, Albion C. C.; D. Fletcher, Albion C. C.; Albert Lea, Men's Own C. C.; Robert Lea, Men's Own C. C.; H. L. Robinson, Oak Bay C. C.; Waddell, Garrison C. C.

The secretary has asked the full name of every aspirant.

#### BIG SOCCER CROWD.

London, Sept. 16.—Before twenty thousand people, Woolwich Arsenal beat Notts County three goals to nothing, and in so doing the Woolwich team goes to the top of the second league table.

Baby Car Special, to 155 For St.

## AS SEEN FROM THE PRESS BOX

Seven straight for Wayne Barham.

Pretty good record for a kid just breaking in this year.

Danny Shea and Bert Lamb were there with the timely clouts.

Kelly is a good backstop, but he was a bit off in his throwing to bases yesterday.

McGinnity changes his team about every week. West looks pretty good at first base.

Victoria looks a lot better with Brooks on the initial sack. It helps the fielding a lot.

Portland is about through as a pennant contender, while Seattle is making another bid for second place.

Kelly, Seattle's fine young right hander, won another game yesterday, beating the Colts 2 to 0.

## PUGET SOUND TEAM DEFEATED WHOLESALERS

The Canadian Puget Sound team won two games in a City League match with the Wholesalers last night. This evening the Colonist-Office and Walters' Union will play.

## SPORTING NEWS (CONTINUED)

### BARHAM AND NARVESON DRAFTED; BEES TO LOSE FOUR YOUNGSTERS

#### Reds Grab Off Local Twirlers; Major Leagues Pick North- western Stars; Local Club Makes Money This Year

Four of Victoria's youngsters are due for major league try-outs this season. In the draft list of the major league clubs, published by the National commission this morning, Wayne Barham and Al Narveson will go to the Cincinnati club next spring for their major debuts. Other Northwestern players were also taken. The Reds picked the majority of the recruits. The American League obtained 67 players from the minors, while the National clubs took down 55 "trinkies."

Among the players drafted from the Northwestern League are the following: Barham, Victoria, to Cincinnati; Brown, Seattle, to Cincinnati; Douglas, Spokane, to Cincinnati; Cincinnati also drafted Gipe, of Seattle, and Narveson, of Victoria, and obtained Kipert from Vancouver. The New York Americans obtained Fitzsimmons, of Spokane; Detroit obtained Holman, of Portland; Boston Nationals obtained Melkie, of Seattle.

Should Make Good.  
"It is no great surprise to me that Barham and Narveson would be drafted," declared President Wattle, of the Bees, to the Times this morning, "but it is going to shoot an awful hole in our twirling department for next season. I would have liked to have held Barham over for another year, as he would have been a sensation in this circuit in 1914. Both he and Narveson will make good, as they are among the few good twirlers in this league."

Barham's rise in baseball has been very rapid. He joined the Victoria club on July 26; pitched against Vancouver a few days later and was beaten. Since then he has won seven straight battles, and is looked upon as a first string pitcher. He comes from Dallas, Oregon, and had not seen a professional game of ball until he witnessed the Bees and Colts play at Portland. He is six feet one in height and weighs 180 lbs. Narveson weighs 175 lbs., but is somewhat smaller, though his greater experience should help him a lot.

New Twirling Staff.  
Manager Delmas will only have Fitcher next year of the staff that worked so well in the latter part of the season, but he has four good youngsters in Bobby Steele, Floyd Brown, Herman Wang and Stalon. He will get right out and purchase a couple of veteran right handers, in addition to a speedy bunch of outfielders. "Speed" will be one of the big factors of the Bees next season.

The drafting of Barham and Narveson at the draft price of \$1,200 each, means that the Bees have sold \$2,500 worth of

AL NARVESON

players this season, and about top the Northwestern League in this respect. Cincinnati has been the biggest investor in the Fielder Jones' circuit, with Detroit next in order.

President Lynch announces that he has signed both Manager Tinker, of the Cincinnati club, and Shortstop Maraville, of the Boston team, \$50, and First Baseman Myers, also of the Boston team, \$100 for fighting on the field during the first game of the double-header here last Saturday. Tinker was suspended three days for using abusive language to Umpire O'Day.

The A. A. leagues draft from September 22 to 27. Class A from September 22 to October 3, and Class B from October 5 to 10.

#### JOCKEY STOLE BELT.

Seattle, Sept. 16.—Henry Beckett, the jockey, who appeared in Seattle ten days ago with the gold belt won by Freddie Welsh, British lightweight champion, was taken to Vancouver by Police Inspector McEldie yesterday to answer to a charge of grand larceny. The belt is valued at \$400, and it is alleged, was stolen by Beckett two weeks ago from a jeweler's window in Vancouver, where it was on display.

## REMARKED ON THE SIDE

### Delmas is Pleased With Showing of Bees.

There is one manager in the Northwestern League who is pleased with the manner in which his proteges are playing baseball, and that is Bert Delmas, the present manager of the Victoria Club. Delmas states that he has never been connected with a club in which better feeling has been shown than has been the case with the Bees in the past few months. But for a bad start, he thinks the Bees would now be hammering at the door of the leaders. He says that there is plenty of baseball talent in the bunch, but that it was not brought out in the right manner from the start. Delmas will have charge of the Bees next spring, and it will be interesting to watch the progress of the local squad under his leadership. He has certainly shown all the qualifications for a successful leader, and unless the luck breaks against him he should pilot the Bees to a pennant next season. He will have plenty of young material to mould into a winner, the executive being determined to have a young and speedy aggregation representing the Capital next year.

### Willie Ritchie Has No Excuse to Offer.

All over the continent the sporting writers are panning Willie Ritchie for his rapid jump from Vancouver to Frisco. The fact that Ritchie does not give any reason for his sudden change of mind makes the case appear just so much blacker against him. Welsh is still waiting developments, but it is doubtful if Ritchie will ever give the English champion a bout. Certainly, Welsh will not concede the points that he did for the Brighouse Station bout, which means that a contest is just as good as off. Harry Pollok, the aggressive manager of the Welsh battler, states that Ritchie simply "ran out" of the match, and is sending around copies of a letter written by Ritchie's manager, Harry Foley, to show that Ritchie did not want to risk his title on this contest. Ritchie's protest that he was not sure of the coin promised him is a flimsy one in view of the fact that there were still two weeks before the purse was to be posted. If Ritchie had any intention of training for this bout he should have got down to business earlier, instead of running around Vancouver. His manager could have attended to the minor details, that is if Ritchie really intended to fight Welsh. This worry excuse will not go with the sporting public the world over, and the Frisco boy is in pretty bad with the title fans just now.

## TIME TRIALS AT WILLOWS TRACK

### Many Horses Out for Warming Up Canter; McGibben Will Be Presiding Judge

For the first time this week a number of time trials were permitted at the Willows track this morning, about two dozen runners being clocked over the various distances that they are being prepared for. The track is now in the finest possible condition and General Manager Fraser looks for a number of new records during the coming meet. No expense has been spared in shaping up the circuit and the horse owners will have no kick as to the condition of the track. Full arrangements have been made as regards the stake events and over-night entries.

McGibben Well Known.  
Presiding Judge Sam McGibben, of Great Falls, Montana, will be on hand to-morrow and local horsemen are elated that the management have been able to secure this celebrated official for the meet. McGibben has just finished a long meet at Great Falls, and is well known over the coast circuit. R. F. Leighton, clerk of the scales, and Phil Heiley, the official handicapper, are both on the ground and will be ready for Saturday's opening. About twenty-five animals arrived on the night boat and there was another shipment on the Adelaide at noon. There will be over two hundred here for Saturday's card, with others to follow just as soon as the exhibition stalls are available.

Following is the programme for the third and fourth days of the meet, together with the conditions of each race:

Tuesday, September 23.

Entries close 10.30 a. m. Monday, September 22.

First race—Selling purse \$300, for three-year-olds and upwards. Seven pounds below the scale. Non-winners since June 23 allowed five pounds. Each to be entered for \$200. Five furlongs.

Second race—Selling purse \$300, for three-year-olds and upwards. Weight for age. Non-winners of two races other than selling since June 23 allowed five pounds; a race of any kind since that date, ten pounds; maidens, 15 pounds. Each to be entered for \$200. Six furlongs.

Third race—Selling purse \$300, for four-year-olds and upwards. Weight 12 pounds. Each to be entered for \$200. Six and one-half furlongs.

Fourth race—Selling purse \$300, for two-year-olds. Weight 110 pounds. Maidens and non-winners since June 23 allowed five pounds. Each to be entered for \$200. Five furlongs.

Fifth race—Purse \$400, for three-year-olds and upwards. Fifteen pounds below the scale. Winners since June 23 to carry one pound penalty for each race won since that date. Six furlongs.

Sixth race—Selling purse \$300, for three-year-olds and upwards. Seven pounds below the scale. Non-winners since June 23 allowed five pounds, and if such are beaten non-winners in 1912, three pounds additional. Each to be entered for \$200. Five furlongs.

Fourth race—The Cowichan handicap. Purses \$400. For all ages. Five furlongs.

Fifth race—Selling purse \$300, for three-year-olds and upwards; \$500 weight for age. Three pounds allowed for each \$100 less to \$200. Seven furlongs.

Sixth race—Selling purse \$300, for three-year-olds and upwards. Seven pounds below the scale. Non-winners since June 23 allowed five pounds. Each to be entered for \$200. One mile.

The purse, conditions and distance of the seventh race will be posted on the bulletin board.

Cleveland is still slipping in the American league, while Washington has also struck a slump.

## TILLIKUMS AGAIN SCORE A SHUT-OUT

## ENGLISH GOLFERS AFTER U. S. TITLES

This year's open championship of the United States Golf Association, which will begin next Tuesday on the links of the Country Club at Brookline, Mass., promises to be thoroughly international in character. There are 175 entries on the list.

This event never has been won by an amateur, but several semi-professionals have entered this year, including the four-time winner of the amateur national title, Jerome D. Travers, of Upper Montclair, N. J.; James G. Anderson, Braeburn, Mass., the runner-up to Travers last Saturday, and W. C. Fownes, Jr., of Pittsburg, a former national champion.

Among the professional entrants are J. J. McDermott, of Atlantic City, the present open champion, and Alex. Smith, of Wykagyl, N. Y., who won the Metropolitan open a few weeks ago.

Great Britain will be represented by Harry Vardon, Edward Ray and W. Erid, a formidable trio. The French pair, Louis Teller and Chris Callaway, may make a strong bid for the honor. Canada is sending W. J. Bell, Charles R. Murray, Karl Kaffer and George R. Cummings, and Mexico a single entry, William Smith, a former United States champion, who has been a resident of Mexico City for a number of years.

The Russian Jew must serve in the Russian army, but he can never become more than a private.

## INMAN WILLING TO MEET HOPPE

Vancouver, B. C., Sept. 16.—McEubourne Inman, world's champion English billiardist, is out with a challenge to Willie Hoppe, world's champion American billiardist, for the world's all-round championship.

Inman in the course of an interview indicated a willingness to meet the New York man in a series of matches at what may be termed "compromise" billiards, such as were played between John Roberts, the former English champion, and Ives, the ex-champion of American billiardists, the plan being to play with a five and a half inch pocket in diameter. In other words, a smaller pocket and a larger ball. Inman's challenge was sent east over the wires last evening, and a reply is expected before the end of the week.

The British champion is willing to play three matches, one in New York, another in London and the third in Paris. He is willing to play any number of points up, and will post any stake that the American champion cares to suggest.

## JUNIOR TITLES

Owing to the postponement of the play in the Junior B. C. championships until Wednesday in this week, the secretary will receive entries up to this evening. Play will begin on Wednesday at 3.30.

Hon. Secretary G. L. Foulkes, states that he will receive entries for the Junior Tennis titles up to to-morrow night at 8 p. m. He may be reached on the phone at 3553. Quite a number of girls have entered and keen competitions are looked for. The matches will be played on the grounds of the Victoria Lawn Tennis Club, Fort street.

Cross and Rivers.  
Los Angeles, Cal., Sept. 16.—The Pacific Athletic Club announced to-day that negotiations for a twenty-round bout between Leach Cross and Joe Rivers, lightweights, at Vernon October 2 or 14 virtually had been concluded. Cross and Rivers have twice battled to a draw.

This will be the first boxing contest here since the Jess Willard-John Young match, the club having cancelled all scheduled matches when

## AROUSED OVER OLYMPIC FUND

### England Does Not Wish to Mix in Semi-Pro. Sports; Old Country Gossip

London, Sept. 16.—One of the chief topics of the conversation in sporting circles last week has been the Olympic fund. This has been started under quite the most influential and authoritative auspices, and yet the demand for money has fallen singularly flat. Lord Northcliffe and one or two others have handed out large sums of money, but the general public absolutely declines to be drawn. The reason is obvious, people here are getting a little tired of entrusting large sums to amateur non-commercial committees who usually spend about 25 per cent of the money they know how. The Sporting Life says that they consider \$100,000 would be quite enough, and most people will be disposed to agree with them, and some satisfactory detailed account as to how the money is to be expended will have to be forthcoming before the public rally to the support of the fund.

There are plenty of athletes here who, if backed on the right lines, would easily place England at the top of the list, but very few genuine sportsmen desire to see people adopt such a system as is in favor abroad. Sport here, in spite of the libel of foreigners, is simply a very small part of a man's life, the recreation of his leisure time. It will be a bad day for this country when it is otherwise, and when young men can be persuaded to waste two years at doing nothing but throwing a javelin, who wants to throw a javelin anyway? It is obvious that the fund will require a big fillip if it is to reach a successful issue, and then the real athletes of the country, who are opposed to this fund almost

to a man, and will not, it may be expected, have anything to do with it, will provide far more winners of the Olympic games than will the specially trained athletes of the £100,000 group.

We are much more interested at the present time in the coming of football, for to-day practice games start over all the country. Practically all the Scottish teams are engaged, while in London, Chelsea, Fulham and Queen's Park ranges have all arranged matches between sides composed of their first and second teams. Several of the Midland and Yorkshire clubs have made similar arrangements, though in the majority of cases the public, unlike in London and Scotland, will not be admitted to the grounds.

Prospects in Welsh as in English Rugby appear to be good this year. Soccer has come in rather strongly in Wales, and the Rugby enthusiasts are going to fight all they know to keep their national game on top. Frank Williams, the great wing of Swansea, has left them to go to Halifax, the Northern Union Club, and W. J. Drew has retired, but there are plenty of good youngsters to take the places of "black" men. Cardiff, however, will, it is feared, not be so strong as last year, but Newport, Llanelly and Neath should all do as well as formerly. In London the Harlequins will very likely suffer from Anno Domini, as though there are plenty of good youngsters, they do not get much chance of showing their pieces while the old ones are fit enough to raise any sort of a gallop. Still, Rugby should be good this year, and it will be interesting to observe whether it will retain the hold which it made on the public last year.

Sportsmen generally regret the death of Harry Price, the young South African boxer, who died after his bout with Private Basham at Liverpool. His death is the more regretted because he is a colonial, and we like to see colonials do well. It would rather appear as if the police court proceedings may result in the making of new regulations controlling boxing in Liverpool, for it appears as if the authorities are going to point out to the referee that it was his duty to stop the fight before the last blow was struck. This will make the judging of bouts difficult in Liverpool, which will be rather a pity, as the men of the Mersey City are taking strongly to the sport.

## Cures Without Drugs Wonderful Invention Restores Health by Nature's Method

nerve and tissue of the body, building up vitality and strength and removing the causes of disease.  
Electricity as applied by Electro-Vigor does not shock or blister. The only sensation is a soothing glow.  
Electro-Vigor is not an electric belt. It never needs charging; for it makes its own power continuously.  
Electro-Vigor has proven a great success. It has cured people all over the West, whom drugs had failed to benefit.

Hotel Strathcona, Vancouver, B.C.  
I find your Electro-Vigor to be the best tonic I have ever come across. It is an absolute cure for rheumatism, nervous debility and various veins.

WM. BLACKBURN,  
Calgary, Alta.

We received the Electro-Vigor promptly. I read the directions and found that it worked all right. I used it two nights and my back pains are all gone; for which I am very glad. Anybody who wants to get rid of back pains promptly should get an Electro-Vigor. Do not bother with the vinegar belts, as I have used them and they are not strong, and you feel little or no results.

M. Y. LUNOR.

## This Is Free

Cut out this coupon and bring or mail it to us. We give you a beautiful 160-page book, which tells you all about this treatment. The book is illustrated with pictures of fully developed men and women, showing how Electro-Vigor is applied and explains many things you want to know. We send the book if you will mail this coupon or call with it.

Free test of Electro-Vigor if you call. Explanation free. Office hours: 9 a. m. to 6 p. m. Saturday evenings, 9 to 5.

## WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought I would break. I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

and became a guest at the Westholme hotel.

Mrs. Frank J. Sehl will not be at home to-morrow, but will receive on the third Wednesday in October.

John C. and Mrs. C. Chalker, who registered at the Dominion hotel yesterday, are from London, Eng.

Mr. and Mrs. D. Campbell, of Vancouver, arrived in town yesterday and are staying at the Dominion hotel.

Mrs. A. R. Mann, of Vancouver, and Mrs. D. Malcolm, of Winnipeg, are staying at the Empress hotel.

P. C. Gamble left yesterday by the North Coast Limited for a trip to Montreal and other eastern points.

W. H. Raymenton and Mrs. Raymenton are here from Worcester, Mass., and are staying at the James Bay hotel.

A. Glimmer, of Toronto, is among those visiting the city from eastern points. He is staying at the Westholme hotel.

Mrs. J. Crawford left yesterday by the North Coast Limited, and the Donaldson liner "Saturnia," for a trip to Scotland.

## SCRAP BOOK.

Mexicans Celebrate Their Great Patriotic Fiesta.

All good hombres and pure patriots of the Estados Unidos Mexicanos—the United Mexican States—will join today in celebrating the anniversary of the birth of Mexican freedom. The sixteenth of September is the national patriotic feast of the southern republic, when love of country and devotion to liberty is fostered by military demonstrations, oratory, band concerts, fireworks, revolutions, and a liberal consumption of mescal, aguardiente and other inspirational beverages.

Many statesmen and politicians who were prominent in the celebration of Independence day a year ago are now in their graves, while others are being driven to the island prison of San Juan de Ulua, where political prisoners are confined in underground cells so small that the inmates can neither stand nor lie down at full length. To these stone coffins of the living death the light of the sun never penetrates and the air is unacceptably foul. Sharks infest the waters around the grim castle, ready to tear and rend any unfortunate who seeks to escape. Into this terrible hole Diaz used to throw his political enemies. The overthrow of old Porfirio resulted in the release of those who had outlived his vengeance, and the foes of Madero took their place. These in turn have been freed, and Maderistas now occupy the subterranean cells of the old castle.

Mexico's long and blood-spattered history began early in the sixteenth century, when Cortes established New Spain on the ruins of the great Aztec empire of Montezuma. The country was governed successively by sixty-two Spanish viceroys.

Mexican "liberty" was born on Sept. 16, 1810, when a native priest, Don Miguel Hidalgo y Costilla, issued that glorious "El grito de Dolores," which was the Mexican declaration of independence. After gaining several victories over the royalists, the priest was captured and executed. The revolution broke out afresh in 1813, just a century ago this year, when a congress of patriots, free and independent. They failed, and in 1815 another priest, Don Jose Maria Morelos, took up the cause of independence, but was defeated and executed. General Iturbide then took up the cause, and in September, 1821, entered the city of Mexico at the head of the patriot army. He was elected emperor, as Augustin I, but was soon overthrown and executed.

General Santa Anna, who was a republican, since then Mexico has had one political convulsion after another, and the people have stopped fighting among themselves only long enough to resist in vain, the expansion movement of the United States, and to oppose successfully the attempt of Maximilian to found a new world empire.

Diaz, ruler with an iron hand, gave Mexico an era of comparative peace, and it remains for another Diaz to bring order out of the chaos.

Scottish scientific organizations will celebrate to-day the centenary of the birth of Robert Fortune, the great Scottish botanist. He spent many years in China and Japan, studying the fruits, flowers, plants, vegetables and other natural products of the Orient, and his many books treating of these subjects are still accepted as authorities.

The Human Procession

Alfred Noyes, the distinguished English poet who recently visited America as a "penic emissary," will celebrate his thirty-third birthday to-day. Mr. Noyes' is an enviable distinction among bards in that, from the very beginning of his career, he has been able to dine regularly from the proceeds of his verse. The young poet who lives in an attic and subsists on occasional repasts of bread and beer and cheese is a common enough figure, but the bard who can translate the muses into "three squares" per diem, and who lives in a luxurious hotel, is unique in literature.

Mr. Noyes was born in Staffordshire, Sept. 16, 1880, and was educated at Oxford. He has just attained his majority when he published his first volume of verse, "The Loom of Years." This was followed by numerous lyric contributions to the leading magazines and reviews of England and America, most of which have been brought out in book form and have enjoyed a large sale on both sides of the Atlantic. The intrinsic value of the poet's work is attested by the high praise from such competent critics as Edmund Gosse, Swinburne, Kipling and Watts-Dunton.

The poet is famed as an apostle of peace, but he doesn't look the part. He is husky of frame, over six feet in height, and a thorough athlete, having pulled an oar in the college eight for Oxford for three years. His wife is an American woman, the daughter of a United States army officer. The poet's work is polished in diction, but his enunciation is vigorous, and he talks straight from the shoulder. He looks like one of those peace advocates who are so determined to have peace that they are willing to fight for it. And, for all his wooing of the muses and his praise of the gentle dove, Mr. Noyes appears able to put up a lively scrimmage.

I see no reason to apologize because the practice of my art enables me to live in comfort and pay my bills," declares the prosperous poet. "Painters live by their art; so do sculptors, composers and novelists. Why not poets?"

Why not, indeed? There doesn't seem to be any reason, except that it isn't customary. All the more glory to Mr. Noyes for having overthrown the custom.

James Jerome Hill, the great railroad builder of the Northwest, will pass his seventy-fifth milestone to-day. He was born on a farm near Guelph, Ont., Sept. 16, 1838. He emigrated at an early age to Minnesota, and began his transportation career

Health and Beauty Helps

BY MRS. MAE MARTYN.

Clara: Your yellowness around chin and neck and general "all-gone" feeling mean that your liver requires a regulator and I suggest a plain kaffee tonic. This will cleanse the blood and give tone and strength to the liver and kidneys, and when these are in a healthy condition you will be free from bilious attacks, obstinate headaches and the pains in small of back and groin. To prepare this tonic put 1 ounce kaffee into 1 pint alcohol (never use whisky), then add 1 cupful sugar and hot water to make a quart. The dose is a tablespoonful before meals. The kaffee tonic is excellent to clear the skin of pimples, blotches and sallowness and its timely use frequently saves doctors' bills.

Bessie: You will be surprised to know how beautifully long and curly your eyebrows will grow if you apply a little proxiton at each root with thumb and forefinger. Thin, ugly eyebrows come in thick and glossy, merely by rubbing proxiton on. Use care and don't get any proxiton where hair is not wanted.

Beulah: If you will keep your scalp clean and plant by occasionally shampooing with an iron hand, gave Mexico an era of comparative peace, and it remains for another Diaz to bring order out of the chaos.

Ella: I do not know how your eye trouble may be caused. There are many reasons which might make them dull, but I do know a certain way here to strengthen and brighten them. To relieve the redness and soothe the eye-strain apply the following tonic: Drop into each eye 2 or 3 drops daily of a simple preparation made at home by dissolving an ounce crystals in a pint of water. This will relieve inflamed lids and beautify and brighten the eye itself. Absolutely safe and inexpensive.

Birdie: Your dry hair and dandruff are human troubles which are very easily cured. Try this tonic which I and many others have used with success.

In a St. Paul steamboat office. What Cecil Rhodes accomplished for the British Empire in South Africa Hill has done for the United States, and his title of "The Grand Old Man of the Northwest" has been fully merited. The eminent Scotch-Canadian has done more for the development of the resources of his adopted country than any other living man. The rich Northwest, with its broad farms and fertile fields and its network of railroads and its thriving cities, is a monument to Hill's energy and ability and breadth of vision—a monument that any king might well envy.

Charles Battell Loomis, the humorist, was born in Brooklyn fifty-two years ago to-day. Before winning fame as an author he was a grocery clerk and a chicken peddler. He is one of the most solemn-faced of men, and looks about as much like a professional comedian as a St. Patrick's Day parade resembles a funeral procession.

I must crown the budget of "graceful acts" that I have already given (writes the now, surely, almost exhausted Manchester Guardian correspondent, with a particularly graceful one by the Queen).

On a certain occasion the Queen with Princess Mary had been out in an ordinary rowing-boat, and the Princess was assisted to land by an old boatman with a kindly, "There, my little lady, 'I am not a little lady," said the Princess, who has never, it may be said, lacked individuality; "I am a Princess." The old boatman was taken aback and rather hurt by the remark. Seeing this, the Queen took the little girl by the hand, and, turning with her to the boatman, said: "The boatman is quite right, Mary. But you might have said that you are not a little lady, but you hope one day to be one."

An English visitor walking in the country in France (evidently the correspondent is not exhausted) stopped a man on the road and in the best French he had asked the way to a certain place. The Frenchman, who clearly did not understand him at all, said: "Je me demande pardon, monsieur, mais c'est l'accent de Paris."

THE QUEEN'S GRACEFUL ACT.

I must crown the budget of "graceful acts" that I have already given (writes the now, surely, almost exhausted Manchester Guardian correspondent, with a particularly graceful one by the Queen).

On a certain occasion the Queen with Princess Mary had been out in an ordinary rowing-boat, and the Princess was assisted to land by an old boatman with a kindly, "There, my little lady, 'I am not a little lady," said the Princess, who has never, it may be said, lacked individuality; "I am a Princess." The old boatman was taken aback and rather hurt by the remark. Seeing this, the Queen took the little girl by the hand, and, turning with her to the boatman, said: "The boatman is quite right, Mary. But you might have said that you are not a little lady, but you hope one day to be one."

An English visitor walking in the country in France (evidently the correspondent is not exhausted) stopped a man on the road and in the best French he had asked the way to a certain place. The Frenchman, who clearly did not understand him at all, said: "Je me demande pardon, monsieur, mais c'est l'accent de Paris."

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

CASCARETS' ALWAYS STRAIGHTEN YOU UP

When Constipated, headachy, bilious, stomach sour, breath bad

Get a 10-cent box now.

You men and women who can't get feeling right—who have headaches, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out. Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil?

## FARES INCREASED FROM THURSDAY NEXT

Manager Sperling of B. C. E. Railway Announces Changes in Street Car Fares in City

New fares over all local lines of the British Columbia Electric Railway were announced yesterday by R. H. Sperling, general manager of the company, who arrived in the capital last evening. They will come into effect on and after Thursday next, September 18.

The chief reform in this announcement is the abolishing of the green commutation tickets, which formerly sold at six for 25 cents, and the workman's white tickets, which were good between the hours of 7 and 9 a. m. and 5 and 7 p. m. on all week days, and which sold at eight for 25 cents. In future there will be no commutation tickets at all. To all intents and purposes the fare will be a straight five cents, with bunches of tickets provided by the company for convenience. The only exception to this will be a somewhat low rate ticket for workmen, which will be sold in strips of ten—five white and five green—at 40 cents per strip, or four cents per journey.

The white tickets will be good only up to 8 a. m. The other half will be good any time up to midnight. Apart from these tickets the fare will be five cents, but for the convenience of the public blocks of tickets will be sold at the rate of five a ticket. School children's rates will remain as before.

Suburban rates, together with transfer privileges, will continue as heretofore, and interurban rates are unchanged. Tickets at present in force will not be sold after to-morrow.

Speaking on the subject, General Manager Sperling made the following statement:

"As is well known, there has been a steady increase in the cost of labor and supplies for some years past. Everything the company buys—labor, electrical equipment, rails, rolling stock and material of every kind—has grown in value until a proper relation no longer exists between the cost of a street car ride and the price paid for it.

"To the people at large, the cost of practically every necessary commodity has also advanced, excepting only the street car ride, which has remained the same.

"The cost of labor, skilled and unskilled, has increased step by step with the cost of living. No such compensating advantage has come to the company, consequently the margin between operating cost and revenue earned has gradually decreased until the profit earned by the company on its investment is no longer adequate to induce the investor to put fresh capital so necessary for the development of the territory served by the company—into the concern. Apart, however, from the view-point of obtaining additional capital, the company has not earned a reasonable profit on its operations during the past eighteen months—certainly no such return as would induce local people to invest their savings in the enterprise."

The general manager also stated that the company's present investment in the province of British Columbia amounts to approximately \$45,000,000, consisting entirely of cash received from its stockholders, which is at present earning about 4 per cent. per annum.

If the necessary further capital required for the adequate development of the territory served by the company is to be raised on reasonable terms, it is absolutely essential that the company's railway revenue should be increased, he said.

"Although the necessity for abolishing commutation rates has been apparent for some time," continued Mr. Sperling, "we have repeatedly postponed action, hoping for an adjustment in economical conditions which would render any change unnecessary. No such adjustment has come, and none is in sight. Therefore, to further delay setting the company's affairs in line with conditions as they now exist, and are certain to continue for some time, would be not only unfair to those who have furnished the money for our development, but dangerous and unsound from a financial standpoint."

WEATHER BULLETIN.  
Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 16—5 a. m.—The barometer is low, the northward and heavy rains continue along the northern B. C. coast. The weather is fine and abnormally not from Puget Sound to California, while in the prairie provinces it remains fine and moderately warm.

Lowest temperature, 52.  
Average temperature, 58.  
Rain, trace.  
Bright sunshine, 36 minutes.  
General state of weather, cloudy.

## RULED OUT MOTION

Proposal to Readjust City Clerk's Office Declared Out of Order by Mayor.

When Alderman Cuthbert's motion to appoint a committee to adjust the city clerk's office so that any friction arising from the recent trouble would be removed came up at the city council last night Mayor Morley ruled it out of order. After some discussion the ruling was referred to the city solicitor, who will report at the next meeting. His worship's motion to amend the by-laws so as to bring the city clerk's department under the city solicitor was laid on the table at the mayor's own request until this report should be obtained.

Mayor Morley stated in ruling the motion out of order that he was determined to protect his own interests and cited the by-law and the act to show that the management of the city offices was left to the mayor unrestricted. Alderman Cuthbert said he had no intention of slighting the mayor and was sorry that he should have put himself on record as blocking a motion which had for its object the procuring of efficient service in a civic department, even if he had the technical right.

The mayor also objected to the personnel of the committee, Aldermen Cuthbert, McCandless and McNeill. Alderman McCandless promptly withdrew and Alderman McNeill thought it was unfortunate to bring up this matter again.

The mayor said he was willing to have an outside independent business man come in and make a report on the running of the city clerk's office, but he was unwilling that a committee of aldermen, all of whom had voted against him, should do this.

Alderman Cuthbert became very much aroused during the discussion and protested strenuously against the mayor's ruling a motion out of order because he was personally opposed to it. He complained that the mayor violated moral rules than any of the aldermen and was always the one to introduce personalities into the discussions, the aldermen seldom if ever disagreeing among themselves.

## IN VANCOUVER 1915

Letter Carriers' Association Will Come West for Next Convention—What Was Done at Winnipeg.

Arthur J. Bird, president of Branch No. 11 of the Federated Association of Letter Carriers, returned from attending the fifteenth biennial convention of that organization at Winnipeg. The meeting, which convened on August 29 and lasted two days, was a most successful one, and among other things discussed were resolutions to the effect that: Sundays be excluded from the annual leave, and carriers be granted 21 days' leave per annum; that carriers be paid wages during times of sickness; that a system of pensions be established in place of the present superannuation; an eight-hour day, and a 40-hour limit for loads; half-days weekly during summer months, and other matters.

The delegation were royally entertained by the Winnipeg letter carriers. The election of officers resulted in the following appointments: Dominion president, W. Hoop, of Winnipeg; vice-president, Mr. Serjorie, of Montreal; vice-president (for British Columbia), A. J. Bird, of Victoria. Vancouver was selected at the place of the 1915 convention, defeating Ottawa and Hamilton, which were also suggested.

Two Aldermen Protest Chambers Street Should Not Be Thus Afflicted.

The proposed erection of a lean-to against a stable which is being erected by the city on its property in Chambers street met with violent opposition at last night's meeting of the city council. Aldermen Fullerton and Humber said that Chambers street was a residential street and should not be afflicted with an eyesore such as this stable, for it was against the stable rather than the lean-to that the opposition was leveled.

Alderman Neston explained that the by-law allowed a stable for four horses to be erected in this place, and that the building would be an ornamental and thoroughly sanitary one. He said that the housing of the horses in this place would mean a more economic service of the public in the street cleaning department, as it took an hour and a half for them to come over from Garbally road.

The lean-to will be built. Its object is to house the tools and stores of the men working in this district, as at present they cannot be locked up. No division was called for on the stable itself, as it was not in the report.

## OBJECT TO CITY STABLES

Two Aldermen Protest Chambers Street Should Not Be Thus Afflicted.

The proposed erection of a lean-to against a stable which is being erected by the city on its property in Chambers street met with violent opposition at last night's meeting of the city council. Aldermen Fullerton and Humber said that Chambers street was a residential street and should not be afflicted with an eyesore such as this stable, for it was against the stable rather than the lean-to that the opposition was leveled.

Alderman Neston explained that the by-law allowed a stable for four horses to be erected in this place, and that the building would be an ornamental and thoroughly sanitary one. He said that the housing of the horses in this place would mean a more economic service of the public in the street cleaning department, as it took an hour and a half for them to come over from Garbally road.

The lean-to will be built. Its object is to house the tools and stores of the men working in this district, as at present they cannot be locked up. No division was called for on the stable itself, as it was not in the report.

## CITY BUYS THREE HORSES.

Alderman Humber Points Out Men Are Laid Off Street Work for Want of Money.

The recommendation of the finance committee that the city buy three horses for the works department was opposed by Alderman Humber last night, who protested that the men on the maintenance department had been laid off for want of money, because Alderman Gleason was anxious to face the electors with a clean sheet. Where, then, he asked was the money coming from for the purchase of these horses?

Alderman Gleason explained that the horses were needed, as for some time past horses had been hired for this work and moreover, there was a special fund set aside in the estimates for the purpose. They are to be used in collecting garbage. Alderman Humber asked that white men be given work with the money instead of devoting it to buying horses that were not needed. The report carried.

The British Empire is sixteen times larger than all the French Republic and forty times greater than the possessions of the German Empire.

## TO-DAY IN CANADIAN HISTORY

It is eighty-three years ago to-day since a meeting was held at Kingston to take steps for the erection of its first public hospital. The building was not actually begun till 1833 and it was not till June, 1835, that the Kingston Herald could report that it was nearing completion. It was designed to accommodate 120 patients, and presented, according to the standards of the time, a fine appearance. It was four stories high, and its rooms were "lofty and well ventilated." It had two fronts, and was approached by a handsome flight of stone steps. A few months after the building was finished, the bedding, stores and furniture belonging to the hospital were consumed in a fire and to replace the loss the people and clergy of Kingston petitioned the Assembly for a grant of \$500. Parliament granted the petition. The erection of the hospital was due largely to Hon. John Macaulay and Dr. James Sampson. The latter, an army surgeon, had been induced to stay at Kingston, it is said, by the pledge of twelve families each to allow him £25 a year, or a total of £300—an arrangement which suggests how scarce, in those days, were competent medical men!

The first state visit of royalty to the Dominion of Canada began twelve years ago to-day, when old Quebec gave a glorious welcome to the Duke and Duchess of York and Cornwall. The streets of the ancient capital were gay with flags and the houses blazoned with banners bearing the French greeting "Bienvenue." The guns of four warships in the river boomed out a royal salute, and when the future ruler of the Empire set foot on Canadian soil he faced a vast assemblage, including the Governor-General, the Premier, nearly all the cabinet members, and most of the leading men of the Dominion. There was a royal review of troops on the Plains of Abraham. Out of respect to the memory of President McKinley, the social receptions in Quebec and Montreal were cancelled. Quebec's welcome was duplicated in Toronto, Ottawa, Winnipeg, Calgary, Vancouver, Victoria and other cities, and when the royal pair sailed from Halifax, October 21, it was with the remembrance of an imperial tour without precedent in history.

September 16 is the birthday of Andrew Bonar Law, British statesman, in New Brunswick, 1853; Lewellys Franklyn Barker, famous physician, at Norwich, Ont., 1867; and of James J. Hill, American railway builder, near Guelph, Ont., 1838. On this date the first organized ministry of the province of Manitoba was constituted, with Hon. M. A. Girard as premier, 1870; and Mr. Pleasants issued his famous "Mandement," urging French-Canadian loyalty to Great Britain, in 1897.

Johnson, Andrew Lewis (Winnipeg); born, Brooklyn, N. Y., 1857; manager of Ames, Holden-McCreedy Company and ex-president of Winnipeg Board of Trade.

## FIRST THINGS

The first attempt of the British to establish dominion over South Africa was made 118 years ago to-day, when the British flag was raised on the Cape of Good Hope, where a Dutch colony had existed since 1652. The British occupation continued until 1802, when the country was restored to the Dutch by the peace of Amiens. The British again assumed possession in 1806, and in 1814 Cape Colony was definitely ceded to England and became the nucleus of the present great Dominion, the Union of South Africa. The Portuguese discovered the Cape, the Dutch settled it, and the British developed it. In 1829 a scheme of public schools, drawn up by Sir John Herschel, came into operation, and has since been vastly improved, until now every child, white and black, enjoys the benefit of the best educational facilities. The first newspaper, printed in English and Dutch, appeared in 1824, and was the forerunner of a large, well-edited and influential press. The pioneer paper was suppressed by a despotic governor, and the indignation of the colonists resulted in the granting of a free press to the colony. Cape Town, founded by the Dutch in 1652 has, under a century of British rule, become a beautiful and flourishing modern metropolis.

"Nap" Roof Compositions are fire-proof and add years to the life of an old roof. See Newton & Greer Co., 1328 Wharf Street.

## GOVERNMENT DELAYS WORK ON RESERVE

Have Not Spent Any of \$300,000 Yet; Bridge May Go to Cormorant Street

A further meeting of the joint committee of the provincial government, the city and the various companies which will use the Johnson street bridge was held this morning, and all parties have practically come to an agreement except on two points.

The greatest disposition to have everything settled up at once is manifest on the part of the city and the various companies, but the government's attitude is preventing a conclusion from being reached. Financial reasons are believed to be at bottom of this. The government promised to devote \$150,000 towards fixing up the bridge in the reserve, and another \$150,000 towards the construction of the bridge. This money was to have been used at the first of the year, but no work has been done on the reserve, and the prolonging of the negotiations about the bridge has permitted the government to keep this money a little longer.

The angle of the bridge has not been determined yet. The two propositions which the committee is discussing are the direct line from the foot of Johnson street, and another scheme bringing the end of the bridge nearer Cormorant street, with an approach from Johnson street by an angle. The advantages of the second scheme are that it will give not only direct communication with the city via Johnson street, but will create a continuous thoroughfare from Esquimalt to Oak Bay by way of Cormorant street.

The other problem which the committee is wrestling with is the height of the bridge. The government and the Inner Harbor Association ask that it be at least higher than the present Esquimalt and Nanaimo Railway bridge in order that tugs may pass through.

The objection to this is that there will be big land damages which the city would have to pay. The counter proposal is as follows: letting the tugs go in at other places, namely, have hinge funnels for passing under bridges.

**CONFERENCE WITH COMPANY.**

Finance Committee Hears Urgent Request for Money From C.M.R. Company.

Another prolonged conference of the city's finance committee with the Canadian Mineral Rubber Company occurred this afternoon in the city hall.

Yesterday afternoon a conference having proved insufficient to the matters under discussion.

Last week an agreement was reached respecting the Gorge road contract, and the point now at issue is how the city is going to pay the company the \$275,000 owing. These conferences are discussing ways and means of settling this money. The company is badly in need of it and the city cannot spare it. That a definite plan for repaying the debt is not yet formulated is obvious from the remarks of some of those present at the conference yesterday, but what this plan is all decline to state.

So much time was taken up by the Mineral Rubber Company at yesterday's meeting of the finance committee that a meeting had to be held this morning to sign the papers and get the clerical work cleared away.

**PLAYED "TRILBY"**

Old Favorites Was Put on by Williams Players Last Evening—Enlarged Cast.

The evergreen favorite of drama, Du Maurier's "Trilby," was put on by the Williams Stock Company last evening at the Princess theatre and received an enthusiastic reception. With its romantic and dramatic situations, its marvelous characterization well delineated by the players the piece was the greatest success put on by this talented company during the year.

Miss Page played in the title role, which is her favorite part, with excellent effect, giving the various complicated emotions of the little "gamin" of the Latin quarter intelligent rendition. Syngenta, although an unpleasant character to act, was well handled by Mr. Belasco, who brought out the "big black spider" idea with great realism.

The famous trio of the Quarter Latin, Billy, Taffy and Sandy, as represented by the actors of the company, made many friends. Little Billie, being well played by Mr. Mitchell, especially in his various relations towards the heroines. The somewhat enlarged cast all did good work, and the stage settings were, as usual, convincing.

**TOO LATE TO CLASSIFY**

**FOR SALE**—Five-passenger 30 h. p. automobile, in excellent condition. All latest accessories, including 1,500 miles. This car and equipment is a real bargain at the price I am asking. Leaving city. For full particulars or demonstration apply owner from 7 to 9 p. m. Phone 3407. a18

## PROVINCIAL OFFICIAL LAID TO LAST REST

Many Friends and Acquaintances Attend Funeral Services of Late Frank I. Clarke

A large number of the personal friends, associates from the civil service offices at the Parliament buildings, British campaigners and acquaintances attended the funeral of the late Frank I. Clarke, which took place this morning from the residence of his son-in-law, W. E. Canavan, 1050 St. Charles street, proceeding at once to St. Andrew's cathedral, where Rev. Father Silver conducted low mass.

A deputation was present representing the British campaigners and the provincial civil service staff, among the former being many old veterans, while the floral tributes sent by these two bodies were conspicuous among the many beautiful tokens of esteem. The Campaigners' Association sent a wreath of laurel in recognition of the late Mr. Clarke's services to the Empire, and the civil service staff sent a handsome cross and wreath of carnations.

From the cathedral the mortal remains of one who was held by his associates and friends in the highest esteem were conveyed to Ross Bay cemetery, the casket, over which was folded a Union Jack, and on which some of the many beautiful flowers were placed, on a gun-carriage furnished by the Fifth regiment, and followed by Messrs. Edwards and Nash, of the British Campaigners' Association.

Father Macdonald officiated at the graveside services, Corporal Cupitt sounding the "Last Post" as the coffin was lowered into the grave. Work Point barracks was represented by Lieutenant Mulcahy, and among the delegation from the Parliament buildings was Dr. L. T. Davis, R. F. Tolmie, H. B. Thompson, Gordon Smith, and others.

The pallbearers were Major J. Wilson, Capt. W. J. Rant, H. Nash, all members of the British campaigners, and Dr. L. T. Davis, M. Lamont and R. F. Tolmie, of the civil staff, Parliament buildings.

## ENGINEER REQUESTS DEFINITE ADVICE

Wants to Know Opinion of Council on Proposed Consolidated Sewer District

Before entering into negotiations with the engineers of the two other municipalities concerned in Engineer Thomson's report on the northwest sewer, City Engineer Rust asked the council last night for specific advice regarding that portion of Colonel Thomson's report recommending the formation of a consolidated sewer district on the lines of the Greater Victoria scheme. If this step were decided upon Mr. Rust said he would not undertake any great expenditure until the power was definitely given by the legislature. The engineer recommended that each municipality construct its own portion and continue to own it subject to the right of the other municipalities to use it as necessary.

Alderman Cuthbert proposed that the special committee appointed to negotiate with the other municipalities take up the matter. Alderman McNeill also urged that a little time be given as the council would not want to commit itself on such an important matter at once. His worship voiced disapproval of the scheme, as Victoria, which was by far the most important of the three municipalities concerned, should not sink its identity to a level with two rural districts. The consolidation was not necessary to Victoria, but it was to the other two municipalities, and he did not see why they should have any control of the construction of Victoria's sewers. Alderman Cuthbert agreed with this.

Alderman Humber asked what was the use of any further negotiations when the city had in 1911 signed a hard and fast agreement to take the whole sewage of Saanich for \$18,500. This agreement had been signed by Mayor Morley, he declared. Neither the mayor, engineer, solicitor, comptroller nor anybody else could remember this agreement except that they all believed it to have referred to a limited area of Saanich. The special committee will report on this agreement as well as on the general plan of consolidation. The committee arranged to meet at 4 o'clock Thursday afternoon.

As a result of a large city offer to extremely poor circumstances. A prominent business man, well known for his mercenary character, attended the funeral and was visibly affected as he looked for the last time on his old friend and associate. "You thought a great deal of the old gentleman," he was asked after the services were over. "Thought a great deal of him," echoed the merchant. "Well, I should say I did. There was a true friend! He never asked me to lend him a cent, though I knew that he was practically starving to death."—Harper's Magazine.
